

PC review of Draft Perú R-PP

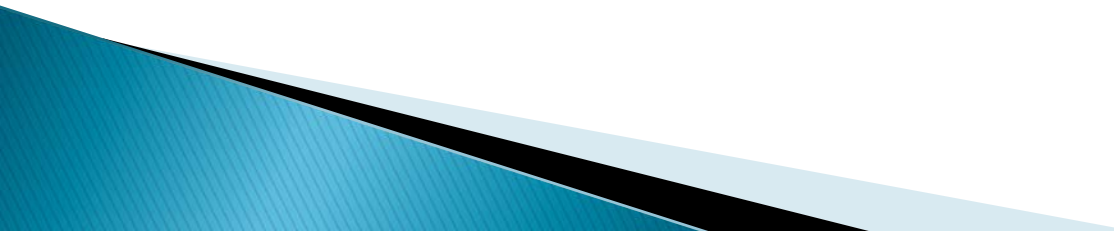

Strengthening of the R-PP

- ▶ The objectives proposed are in general very ambitious and clear
 - ▶ Proposal to take into account the piloting experience and already existing initiatives
 - ▶ Articulation of government process with non government process, such as Mesa REDD Peru
 - ▶ Is a good starting point to improve the process of R-PP elaboration
- 

Area for improvement

- ▶ A stepwise approach, midterm objectives or initial activities detail could be incorporate to clarify how the process will be conduct
 - ▶ More articulation between the different component
 - ▶ A phased approach could be help structure the consultation plan
 - ▶ In the component 1a is mentioned the mesa REDD Peru. This initiative could play a relevant role in the consultation and participation plan.
- 

Recommendations

- ▶ Add information of Specific drivers according to the different eco–regions or forest types (not only the Amazon region)
 - ▶ Clarify the link between the national scale and Project based activities.
 - ▶ Incorporate the issue of methodology consistency between different scales
- 

Recommendations

- ▶ Identification and analysis of potential strategies to control or address leakage, especially considering that project based and sub-national activities has to be one of the pillar for the development of the strategy
 - ▶ Clarify if bottom-up approach strategy is applied how this will be incorporate in a national strategy.
-
