## **Discussion topic 1: Vision and Aspirations**

- **Considering technical advancements and financial structures, how do you see REDD+ evolving in the coming years?**

## **Discussion topic 2: Stakeholder Engagement**

- How can diverse stakeholders, including governments, the private sector, and Indigenous communities, collaborate more effectively in advancing REDD+ goals?
- What role do donors and development partners play in supporting the future of REDD+?

## **Discussion topic 3: Strategies for Scaling Up Emission Reductions**

- **What strategies and frameworks do you think are crucial for raising ambitions in emission reductions for REDD+ interventions?**

## **Discussion topic 4: International Frameworks and Carbon Markets**

- In light of advancements in voluntary carbon markets, how can these markets contribute to the success of REDD+ initiatives?
- Additionally, how do developments in international frameworks, specifically in negotiations of Article 6 of the Paris Agreement and outcomes of COP28, impact the future trajectory of REDD+ efforts?
