- FY19 Shared Costs were approved by PC in March 2018
- **Proposed budget for CF for FY19 of approximately \$7.3 million (excluding Shared Costs) to be approved by the CF Participants at this meeting (CF18)**

III. FY19 Budget Proposal

III. FY19 Budget Proposal

Proposed Additional Activity – Promote Private Sector Engagement in FCPF* - \$500k (continuation from FY18)

CFPs approved an FY18 budget allocation of \$600k to satisfy a desire for increased Private Sector Engagement in the FCPF. It included:

- Providing increased support for the Private Sector Observer to attend Carbon Fund meetings and conduct to workshops
- Hiring experts to explore concrete opportunities for regional or country specific workshops, public-private dialogues on relevant design issues, and other venues for linking the membership and activities of, as examples, TFA, the US State Department's commodity Initiative, IDH**, UNDP Green Commodities Program with the REDD+ programs currently under development.
- A Private Sector Specialist joined the team midyear.

The FMT proposes to carry over the remaining \$500k for work in FY19.

* See FMT Note CFM – 2017-2 for details

**IDH = Sustainable Trade Initiative

III. FY19 Budget Proposal

Proposed Additional Activity on Registries – \$300k

- Consultancies currently ongoing to help the FMT to elaborate a technical and financial proposal to develop and implement a centralized transaction registry.
- The FMT's intention is to develop a centralized transaction registry in an appropriate timeframe to ensure registration of the first ER transactions.
- This budget of \$300k is a very approximate estimate to ensure funds are available to enable development of the registry as soon as that decision is taken, without the need to refer back to the CFPs.
- The FMT will update the Carbon Fund meeting on progress and estimated costs at the next meetings.

IV. Decision for this Meeting

- Is approval provided for the proposed FY19 Carbon Fund budget of \$7.3 million, including the proposed Additional Activities on Private Sector Engagement and Registries
- Note the CF portion of the Shared Costs (\$1.0 million) as approved by the PC
