MAXIMIZING FINANCING FOR JURISDICTIONAL REDD+

- **Managing “Nesting” Effectively:** November 10 – 8:30 am-10 am EST
- **Accessing Complementary Sources of Climate Finance:** November 11 – 8:30 am-10 am EST

DAY 2: ACCESSING COMPLEMENTARY SOURCES OF CLIMATE FINANCE

CORSIA

Jurisdictional level

This section lists organizations operating at the jurisdictional level. On the left, the Green Climate Fund and BMZ (Federal Ministry for Economic Cooperation and Development) are shown. In the center, the logo for NICFI (Norway's International Climate and Forest Initiative) is displayed. On the right, the Forest Carbon Partnership Facility, VERRA, and ART (Architecture for REDD+ Transactions) are listed.

Project level

This section shows the VERRA logo, indicating its role at the project level.

MAXIMIZING FINANCING FOR JURISDICTIONAL REDD+: MANAGING “NESTING” EFFECTIVELY

Charlotte Streck | Prof. Dr. Charlotte Streck is director of Climate Focus, an international advisory company on climate policy, and adjunct professor of the University of Potsdam. Charlotte has been actively involved in climate change law and policy throughout her career and is a renowned expert on the causes of land conversion and strategies to address deforestation, agricultural supply chains, land governance, and forest policies. Over the last years she has focused her attention on the climate impacts of diets and the behavioral aspects of climate policy. Before founding Climate Focus in 2004, Charlotte worked for five years as Senior Counsel with the World Bank and sits on several advisory, investment and editorial panels.

Donna Lee | Donna is a climate change and land use consultant providing support to governments, the private sector, NGOs, and foundations. She formerly worked for the US State Department, including as a climate negotiator and as the REDD+ focal point for the United States.

MAXIMIZING FINANCING FOR JURISDICTIONAL REDD+: ACCESSING COMPLEMENTARY SOURCES OF CLIMATE FINANCE

Juan Chang | Juan is the Principal Forest and Land Use Specialist of the Green Climate Fund (GCF). Juan previously worked as a Senior Forests and Climate Change Specialist of the Inter-American Development Bank (IDB) and prior to that as Forestry GHG Auditor for the Clean Development Mechanism and Voluntary Carbon Markets. Juan has several years of experience in field work in the Peruvian Amazon working in biodiversity conservation, accumulating a total of 20 years of professional experience.

Leslie Durschinger | Leveraging 20 years of experience and a proven track record in the financial services industry, Ms. Durschinger founded Terra Global Capital in 2006 to promote results-based approaches to sustainable agriculture and forestry management. Ms Durschinger is recognized as a pioneer and innovator in the alignment of development values and financially viable approaches to sustainable landscape management. Terra is a global leader in climate smart agriculture and reduced deforestation program development, greenhouse gas quantification, and community-based business model development by providing technical expertise and investment capital to their global client base of governments, NGOs, and private companies in a collaborative and participatory manner. Under Durschinger's leadership, Terra has launched numerous commercially viable sustainable landscape management programs, designed new risk mitigation instruments, and developed trust funds and private equity funds that drive investment capital to sustainable agricultural production and forest management.

Jessica Orrego | Jessica has 20 years of forest carbon-related work experience in the carbon market and offset project development. She is currently part of the Secretariat of the Architecture for REDD+ Transactions (ART) and serves as the Director of Forestry at the American Carbon Registry (ACR), which comprises two carbon standards hosted by Winrock International. Prior to joining Winrock, Jessica worked at companies that developed offset projects, including Equator, Camco, and EcoSecurities.

MAXIMIZING FINANCING FOR JURISDICTIONAL REDD+: ACCESSING COMPLEMENTARY SOURCES OF CLIMATE FINANCE

Manuel Estrada | As the REDD+ and AFOLU Director at Verra, Manuel is responsible for the day-to-day management and evolution of Verra's work in this space, including supporting the nesting of REDD+ projects. Manuel provides relevant policy and technical input to the Innovation Team to ensure new REDD+ and AFOLU related standards, methodologies, and program innovations are technically sound and align with relevant international and domestic policy frameworks. Before joining Verra, Manuel accumulated more than 20 years of experience on climate change issues at the Ministry of Environment of Mexico and as independent consultant for governments, international organizations, and the private sector.

Angelo Sartori | As the Director for Latin America and the Caribbean at Verra, Angelo is responsible for promoting the use of standards and frameworks administered by Verra in that region. He works with various stakeholders in these countries, including national and regional governments, NGOs, the private sector, and cooperation agencies, to support initiatives for channeling finance to develop sustainable projects and programs. In particular, he collaborates with governments and other stakeholders to strengthen domestic and international carbon markets to help achieve the environmental commitments. Prior to joining Verra, Angelo worked for the National Forestry Corporation of Chile as the Head of the Climate Change and Environmental Services Unit, serving as the National Focal Point of REDD+ within the UNFCCC.
