

Addressing Issues on Summary Report of the 3rd FCPF Participant Committee Meeting in Montreux, 16 – 18 June 2009

No	Issues	Follow up/Notes
1.	<ul style="list-style-type: none"> • Plan and schedule for further stakeholder consultations, • Participation of local communities on the development and implementation of the R-PP, including representatives from forest-dependent indigenous peoples and other forest dwellers, and CSOs 	<ul style="list-style-type: none"> • Relevant channels for stakeholder consultations will be used and enhanced (f.e. National Forestry Council, Land Tenure Working Group, Community Forestry Working Group, VPA – FLEGT, CERINDO and others), • Consultation and outreach plan in the RPP will be the basis for discussion for further improvement and adjustment. • Considering the uniqueness of each IP and local community in Indonesia, the most appropriate channels and mechanisms will be identified. • Participation of CSOs : Most CSOs in Indonesia receive funding from overseas for REDD related activities, coordination and synergy among CSOs and between CSOs and other pillars of governance still need to be improved → will be part of readiness process.
2.	<ul style="list-style-type: none"> • Land tenure issues and resource access, • Distribution of costs and benefits of REDD → • Ensuring that the rights and interests of relevant stakeholders, including forest-dependent indigenous peoples and other forest dwellers, are taken into account; 	<ul style="list-style-type: none"> • Could be discussed under the 3 main focus of the new Minister of Forestry policies (Improving forest spatial planning, Institutional reform, and regulatory review to avoid inconsistency among regulations). • Under discussion, coordinated by the Ministry of Finance. • Guided by the 5 year programme of the SBY-second term of presidency : for domestic affairs (Prosperity, Democracy, Justice including protection for the vulnerables)
3.	<ul style="list-style-type: none"> • Consultations with relevant sectoral and planning agencies (e.g., Agriculture, Finance, Environment, Planning) and for consulting with provincial, district (<i>kabupaten</i>) and city (<i>kota</i>) levels of government, with a view to forming a common vision and gaining support from all levels of government for implementation of 	<ul style="list-style-type: none"> • Activities on-going, e.g. CC and National development issues (coordinated by National Development Planning Agency), Financial aspects of CC including REDD (coordinated by Ministry of Finance), Environmental policies including CC (coordinated by MoE), Agricultural land uses (by MoA), and also through “Ministerial meeting chaired by the President”, noting that contribute to the global effort related to CC is one of SBY international policies)

	the R-PP;	<ul style="list-style-type: none"> For REDD specific issues → will be done under “ National REDD Working Group”, and will be part of the whole plan of consultations.
4.	<ul style="list-style-type: none"> Clarification the respective roles and responsibilities of the different national government agencies and different levels of government with respect to the implementation and monitoring components of the R-PP 	To be discussed with related institutions
5.	<ul style="list-style-type: none"> Policies to ensure coherence between sub-national reference emissions levels (REL) and monitoring requirements and national REL and the national carbon accounting system; 	Indonesia REDD is “National approach with sub-national implementation” → this requirement is embedded in the REDD policy (Ministerial Regulation/PERMENHUT No. P 30/2009)
6.	<ul style="list-style-type: none"> Clarification and review of existing policies that govern the conversion of natural forests, including peat forests, to oil palm or other agricultural crops, and plantations for pulp and paper, and develop policies and strategies for addressing drivers of deforestation that assess the trade-offs between different policies; 	<ul style="list-style-type: none"> Proposed Analytical Works funded by FCPF on underlying causes of DD (TOR in preparation) Policy interventions to address drivers of DD including through investments that encourage private sectors to improve their forest land use practices (one of the Key Elements of REDD Indonesia Readiness Strategy)
7.	<ul style="list-style-type: none"> Identification investment needs and possible financing sources for the implementation of the REDD strategy, a broad spectrum of domestic and international opportunities for funding and partnerships, and promote effective donor coordination in the REDD readiness process, particularly with UN-REDD; 	<ul style="list-style-type: none"> Included in the “REDDI Readiness Strategy”, this is a living document (there is a room for improvement along with the improvement of our capacities, and the progress of REDD related negotiations).
8.	<ul style="list-style-type: none"> Development and elaboration on strategies and safeguards to ensure that REDD projects and programs do not adversely affect biodiversity and other forest ecosystem services, the livelihoods of forest-dependent indigenous peoples and other forest dwellers. 	<ul style="list-style-type: none"> Will be done accordingly.
