

# NATIONAL REDD+ STRATEGY (DRAFT)

National REDD+ Secretariat Committed to making Ethiopia ready

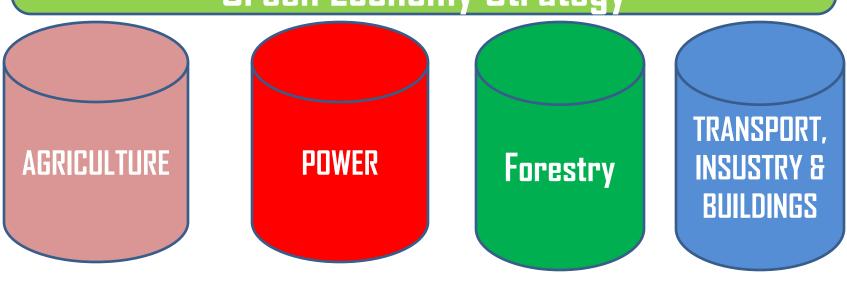

to the global REDD+ mechanism

### **REDD+** is embedded in the CRGE

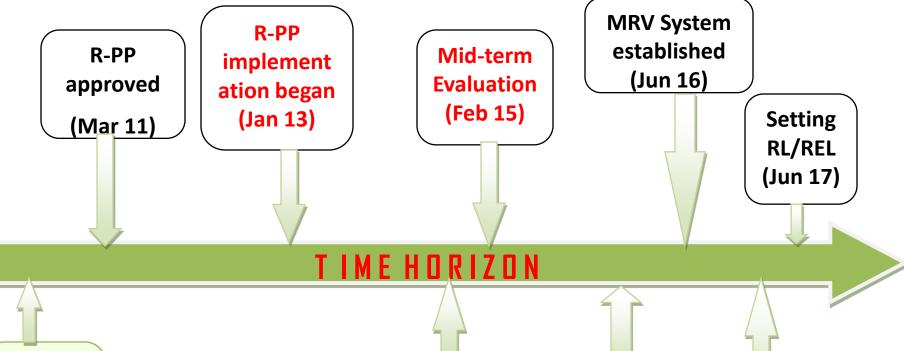

## **Readiness Timeline**

R-PIN Jun 08

Draft REDD+ Strategy

(Nov 14)

REDD+ Strategy finalized (Sep 15)

R-Package (Aug 16)

# Approach

### **Analytical Studies**

### **Draft strategy (Current status)**

### **Consultations**

Final Strategy (Sept. 2015)

# **Strategic Direction**

### VISION

REDD+ plays the leading role in realizing carbon neutral economic growth of Ethiopia

### MISSION

- Ensure sustainable management and restoration of forests contribute to environmental and socioeconomic gains.
- Establish effective legal and institutional framework and enhance capacity development for implementation

### **PRINCIPLES**

Equity, Effectiveness,
Transparency,
Accountability & Commitment

# **Pillars, Actions & Impacts**

Global REDD+ Mechanism

#### **Pillars**

#### **Actions**

#### **Impacts**

Strengthening institutions

Institutional arrangement, Forest governance, Financing mechanism, safeguards, MRV

stocks

**Emission reductions** 

and increased carbon

**Legal and** regulatory **Frameworks** 

Land use planning, law enforcement.Carbon tenure. incentives/disincentives

**Biodiversity** conservation

Stakeholder **Engagement**  Multi-sector coordination. community participation, capacity building, communication, benefit sharing

Watershed protection

**Strategic actions** 

FM, BD conservation, A/R, restoration. SLM. Climate Smart Agr. (CSA), rural energy, national programmes research

safeauards, MRV .....

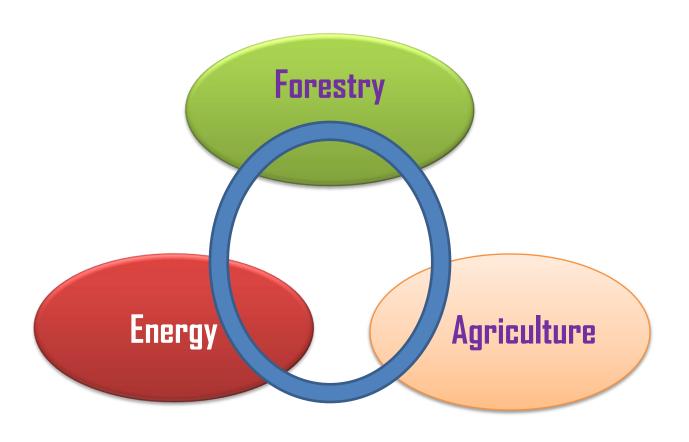

**Enhancing the role of** forests in the **Economy** 

## **Inter-sectoral Coordination**

Committed to Making Ethiopia Ready to the Global REDD+ Mechanism

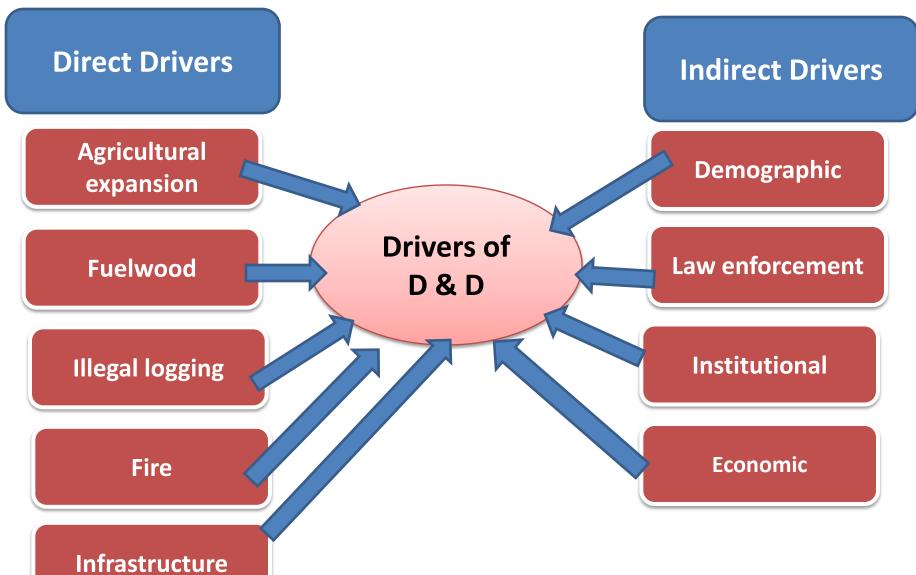

### **Drivers of D & D**

Committed to Making
Ethiopia Ready to the
Global REDD+ Mechanism

# **Strategic Levers**

**Strategic** 

**Options** 

Sectoral synergy and participation

Strengthening law enforcement

Land use planning

**Institutional capacity** 

Targeted measures

Agriculture/livestock intensification

PFM/AR/AE (7 million ha)

Efficient cook stoves Increase biomass

**Income generation** 

# Components

### Institutional

- Decentralized
- Nested

Legal and regulatory framework

Sustainable finance

The strategy

Risks & mitigation measures

### **RL/MRV**

- National/
- sub-national

C & P

Benefit sharing

Safeguards

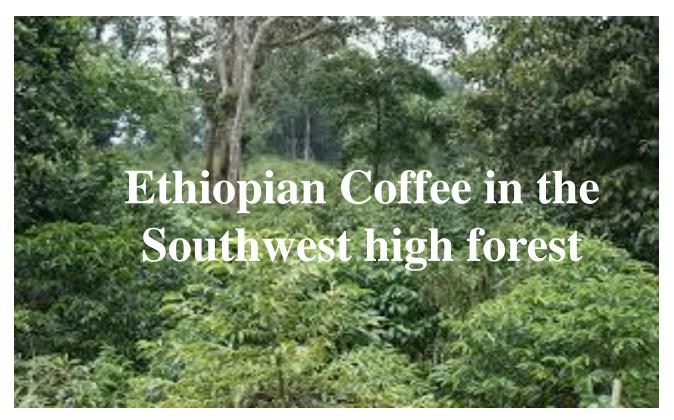

# **Take Home Message**

- REDD+: Emission reduction through conservation of existing forests and carbon enhancements through forest restoration
- The leading role of forestry in green growth & sustainable development (mountainous country)
- Focus will be on landscape-level approaches to REDD+ development in order to ensure multiple benefits
- Inter-sectoral coordination & stakeholder participation are key to the successful implementation.

THANK YOU!!!
