

**Draft Roster of Experts**  
**Revised on 4 March, 2010**

Name	Affiliation	Nationality	Regional Experience	Country Experience	Area of Expertise	Other significant experiences	Years of Experience	Academic Background
<b>Cyrille Adebun</b>	Co-ordinator, Organisation concertée des ecologistes et amis de la nature (OCEAN)	Congolaise	Africa	DRC, Cameroon	Civil society issues	Expertise in engagement of civil society on forestry issues, infrastructure development etc. Responsible for multiple projects in OCEAN. Also worked as consultant with GTZ, PANOS Paris (an organisation which reflects the diversity of contemporary societies, where all communities, including the most marginalised, are able to express their points of view) and with Rainforest Foundation.	15	Science Graduate
<b>Alexander Boamah Asare</b>	Manager, Collaborative Resource Management Unit, Forestry Commission, Ghana	Ghanaian	Africa	Ghana	Governance, consultations, collaborative resource management, Forest Policy, Legislation and Management;	Experienced in collaborative resource management involving all stakeholders. Coordinating development of Forestry Forum, Operationalisation of Participatory Forest Management Systems and building capacity of middle level managers on participatory management approaches. In country experience on various forestry aspects.	18	Enrolled for Ph.D (Forest Governance)
<b>David Neil Bird</b>	Research Scientist, Joanneum Institute, Austria	Canadian, British	Africa, Latin America, Asia	Ghana, Kenya, Bolivia, Ecuador, Peru, Argentina, Brazil, Chile, Paraguay, India	Methodologies, Forest Monitoring, Forest Strategy and Project Development	Areas of expertise include Clean Development Mechanism particularly LULUCF project development, Baseline and monitoring methodology development and assessment of forest C stocks, forestry project carbon flux modeling using GORCAM, CO2 FIX, economic impact assessment of GHG emissions, project management and climate change strategy development. He is a member of the Afforestation/Reforestation working group of the CDM EB, of the UNFCCC. Works as a consultant for the BioCF Fund, WB and with other organizations on climate change and forestry issues. Several publications and reports.	13	M.Sc

<b>Neil Maclean Bird</b>	Research Fellow, Forest Environment and Climate Change Programme, Overseas Development Institute UK	British	Africa, Asia LAC	Ghana, Cameroon, Belize Guyana PNG	Forest management, Governance, Rural Livelihoods	20 yrs experience as a development professional. Prior to joining ODI, Worked as a long-term adviser within several forest departments, most recently in Guyana and Belize, Ghana (1988 to 1991). His interests lie in tropical forest management, and much of his work over the last ten years, based in Belize and Guyana, has dealt with the issue of sustainability. Also involved in development of forest resource assessment methods, the definition of forest management standards, and the establishment of institutional procedures that promote good forest management. He was involved in the recent piloting of the Poverty-Forests Linkages Toolkit.	20	M.Sc
<b>Juergen Blaser</b>	Intercooperation – Deputy Director General and Head of the Forestry and Environment Team	Swiss	Africa, Latin America, Asia, Others	Several countries globally but mainly tropical countries in Africa and Asia	Forest Policy and strategies, Forest management Forest Biodiversity	Has worked in several capacities on forestry issues and therefore has broad ranging experience in forestry issues including those related to climate change. Team lead for several Swiss lead international initiatives in Forestry. Social forestry; carbon forestry, forest policy and economics, tropical forest management, development assistance in forestry. Very well published.	27	Ph.D
<b>A.J. Van Bodegom</b>	Senior expert in Biodiversity and Society	Dutch	South America, Africa Asia	Colombia, Suriname, Peru Lao	Forest Biodiversity, Forest Policy and strategies, Consultations	Experienced in many aspects on the brink of biodiversity and society in an international context, both in agricultural and more natural landscapes. obtained much experience in forest governance issues, including FLEGT, financing sustainable forest management and REDD. Processes to formulate and execute natural resource management policies in cooperation with relevant stakeholders have his keen interest. Short term assignments in several countries. Coordinator of a (Dutch speaking) platform on REDD in the Netherlands and Suriname with approximately 90 participants from government, private sector, NGOs and scientific community.	20	M.Sc. in tropical silviculture

<b>Jan Börner</b>	CIFOR	German	Central and South America, Africa and Europe		Agriculture and Resource Economist, Policy impact analysis; qualitative and model-based analyses of land use and land use change	Conceptualization of distribution mechanisms for direct transfer payments, assessment of drivers of deforestation, baseline modelling and opportunity cost assessments.		
<b>Emily Boyd</b>	Fellow at the Oxford University Centre for the Environment within the School of Geography and Environment and a Research Associate and theme leader at the Stockholm Resilience Centre, Stockholm University.		Latin America	Bolivia, Brazil, Costa Rica, India	experience in Central and South America, Africa and Europe.	Social scientist specializing in the areas of environmental governance, climate change and development. Current research is focused on development futures under climate change, in particular focusing on the social development consequences of markets for nature and of resilient climate adaptations. In particular, interested in the dynamics of change, question of scale, the linkages between local and global institutions, and the roles that are played by non-state actors. Previous research has centered on South America and Africa; now works on issues in India.	8	Ph.D
<b>Hon. Max Bradford</b>	Economic Consultant, Director Bradford and Associates	New Zealand		Guyana, Sudan	Governance & infrastructural Reforms	He is a government/governance reform expert in fragile states: Sudan, Guyana, Liberia, Haiti, PNG, Chad, Timor-Leste. Working on "Democratic governance and institutional assessment"(DGIA) in Guyana for the Inter American Development Bank, DFID, CIDA and the UNDP. Earlier worked on Guyana Fiduciary Oversight Project (2004-2005) with the World Bank and Govt. of Guyana. Retired Cabinet Minister in New Zealand Government and previously worked for the IMF.	35	M.Com (Economics)

<b>Derek Broekhoff</b>	Policy Director, California climate registry				National registry			
<b>Jürg Brand</b>	Consultant and Director of DEC (Development Environment Consult)	Swiss	Africa	Madagascar	Rural Development and Environment , Sustainable Forest Management, Community based Resource Management	Several years of experience in Madagascar. Technical assistance and representation of projects involved in conservation, rural development and research. Conception of management plans and strategic plans, technical reviews and financial proposals for projects. and the production systems of the humid slash-and-burn areas and the central highlands of Madagascar . Specialization in sustainable resource management, community-based planning, systemic planning approaches for resource use, GIS and remote sensing, protected areas management, integrated rural development and baseline and impact studies	17	Ph.D (agro-ecological system, Madagascar)
<b>Dr. Norma Bubier</b>	Executive Director, Pro Natura, UK			Guyana	Rural Livelihoods, social issues and consultations, Indigenous Peoples	Twelve years experience in developing, implementing and administering projects in Guyana including traditional medicine, community agro forestry, environmental forum and advocacy, good governance, micro-credit with Amerindian communities. Also experienced in participatory research and stakeholder processes, PRA, developing social capital and identifying needs and local capacity building and developing partnerships between govt, civil society and corporate partners (e.g. for payment for environmental services, landscape measurement of carbon sequestration). Was one of the authors of the Guyana's proposal to auction stewardship of their rain forests. Pro Natura is doing climate change all over the world.	12	D.Phil

<b>Janette Bulkan</b>	Post-doctoral Fellow in International Environmental Human Rights, Colby College, Maine, USA	Naturalized US Citizen	Latin America	Guyana, Suriname	Rural Livelihoods, social issues and consultations, Indigenous Peoples, IPR and Access and Benefit Sharing.	Extensive experience as an instructor in US Universities and as Senior Social Scientist, Iwokrama International Centre for Rainforest Conservation. and Development specializing in International Environmental Human Rights, Indigenous peoples issues, sustainable livelihoods, participatory resource management, local institutional strengthening and collaborative management initiatives. Substantial experience of working with indigenous peoples and indigenous issues.	24	Ph.D
<b>Christian Burren</b>	IRG (contractor for USAID)	Madagascar			Production forests and energy			
<b>Jürg Brand</b>	Consultant for World Bank and Swiss Intercooperation	Swiss	Africa	Madagascar	Rural development and community based natural resource management	17 years of experience in natural resource management and rural development in Madagascar. Technical specialization in sustainable resource management, community-based planning, systemic planning approaches for resource use, GIS and remote sensing, protected areas management, integrated rural development and baseline and impact studies. projects involved in conservation, rural development and research. Conception of management plans and strategic plans, technical reviews and financial proposals for projects	17	Ph.D

<b>Sandra Brown</b>	Senior program officer and senior scientist, Ecosystem services Unit, Winrock International	British & US	Africa, Latin America	Indonesia, Mexico	Forest Monitoring, Methodology (Reference Scenarios), Rural livelihoods, social issues	Previously worked as senior scientist for US federal government; Lead author for IPCC. Strengths: feasibility studies for climate change mitigation programs, projecting carbon benefits for reforestation programs that improve rural livelihoods, training local NGOs to conduct environmental assessments and data analysis, and apprising policy-makers of the socio-economics of land use change, deforestation, and carbon trading	28	Ph.D
<b>Mark Bynoe</b>	Managing Director of Development Policy and Management Consultants	Guyanese	Latin America	Guyana, Trinidad & Tobago	Economics, social and environmental assessments	Economist with specialization in trade and resource economics, - specifically in the areas of benefit/cost analysis, social assessments, climate change adaptation strategies and environmental assessments, resource management, and trade issues. Skills involve managing, developing and motivating teams to achieve their objectives, and organizing, facilitating and/or participating in multi-stakeholder public forums in advancing the concerns of climate change nationally and regionally.	8	Ph.D
<b>Franz Tattenbach Capra</b>	Executive Director, FUNDECOR, prominent forestry conservation NGO in Costa Rica.	Costa Rica	Latin America	Costa Rica	Economics of REDD, Co-benefits	Served as member of the Executive Board of CDM. National Co-coordinator, Costa Rican Office of Joint , National Co-coordinator, Costa Rican Office of Joint Implementation and Costa Rican Ambassador to UNFCCC: expert on Costa Rica's experience in using economic incentives for environmental management.	22	Ph.D

<b>Ana Doris Capistrano</b>	Senior Fellow, Southeast Asian Regional Center for Graduate Study and Research in Agriculture (SEARCA), Los Banos, Laguna, Philippines	Phillipines	Asia	Phillipines, India, Nepal	Environmental governance, conservation and development, SFM, Resource Economics	Chair of the Board of Directors (2005-present), Rights and Resources Initiative (RRI) . Several years of experience of working on governance issues particularly in Asia with international organisations. Consultant for CIFOR. Worked on an interdisciplinary, integrated and multi-scale assessment of scientific knowledge on the relationships between ecosystem changes and human well-being and options for responding to those changes. Engaged in 33 sub-global assessments around the world and involved the development of some new concepts, approaches and tools to incorporate different systems of knowledge at multiple scales into the assessment	23	Ph.D
<b>Brigitte Carr</b>	Conseiller senior, Initiative Régionale Basin du Congo (CARPO), WWF			Congo Basin				
<b>David Cassells</b>								

<b>Mariano Colini Cenamo</b>	Executive Director, Institute for Conservation and Sustainable Development of Amazonas (IDESAM)	Brazil	Latin Amer	Brazil	REDD policy, Social development, Payment for environmental services, co-benefits	Has coordinated all IDESAM projects, located in the Amazonas State and mainly related to climate change and forest conservation, creation of mechanisms for payment for environmental services, management of protected areas, and projects related to the carbon markets as the Clean Development Mechanism and projects for Reducing Emissions from Deforestation on the UNFCCC context. Has worked on Juma Sustainable Development Reserve: The First REDD Project in the Brazilian Amazon.		Graduation (Forestry Engineering)
<b>Johnson Cerda</b>	Member of the coordination committee of the NGO network of GEF	Ecuador	Latin Amer	Ecuador	Indigenous peoples & REDD, Forest Biodiversity	Research work for CI. Role of indigenous peoples in REDD. Relation of biodiversity conservation and climate change. Co-Director of the Amazon Alliance based in Washington DC, USA from 2000 –2005.	10	Enrolled for Ph.D in law
<b>Steven Cobb</b>	Director, The Environment & Development Group, Oxford.	British	Africa, Asia, Latin America and Caribbean	Over forty countries globally	Forest Policy & strategies, Rural Development, Program Evaluation	He has extensive knowledge of tropical ecosystems and protected areas, and has been involved in the processes of institutional reform and capacity building and environmental agencies of six African countries as well as in south-east Asia. Strengths in policy analysis, impact assessment and conservation finance initiatives. Great experience in program evaluation. Considerable experience in program evaluation. Fifteen years field experience in African rural development and natural resource management. Considerable experience in program evaluation. Fifteen years field experience in African rural development and natural resource management.	37	D.Phil (Tropical Ecology)

<b>Ken Creighton</b>	Principal Policy Advisor. Forests and Climate, WWF-International	USA	Latin America and the Caribbean, Africa	Bolivia, Costa Rica, Panama, Mexico, Venezuela, Madagascar, Cameroon, Ghana, Botswana, Nepal	Biological conservation, biodiversity, social and environmental impact assessments	Global experience on biodiversity issues including the following: Technical advisor for Global Environment Facility (GEF) biodiversity projects throughout the Africa Region and task manager for Cameroon Biodiversity Conservation and Management Project. Contributed to development of Bank OP on Biodiversity and evolution of Bank procedures for environmental impact assessment and social assessment. Design of monitoring and reporting protocols for environmental and natural resource management projects. Senior Environmental Specialist, UN Food and Agriculture Organization, Investment Centre. Multiple field missions for preparation of Environmental Impact Assessment, development of guidelines, and design of training program for review of environmental and social impacts of projects. Technical advisor to the COMIFAC and Congo Basin Climate Focal Points on development of national REDD strategies and REDD readiness plans. Development of WWF Regional Strategy and Action Plan for Forest-based emissions reduction and carbon finance in the Congo Basin.	25	Ph.D. Ecology and Evolutionary Biology
<b>Elijah Ya Danso</b>	Senior Programme Officer, Environment and Water, Embassy of Netherlands , Accra	Ghanaian		Ghana	Rural Livelihoods, social issues and consultations, Social development and policy analysis, Monitoring and Evaluation	Expert in social dimensions of programmes in Ghana. Extensive experience in civil society engagement in environmental projects and social issues including social impact assessment. Worked as social advisor and social development consultant for various projects in Ghana. Evaluation of GEF projects in Ghana.	21	M.Sc (Development Planning and Management )

<b>Guy Patrice, Dkamela Mbeche</b>	Cameroon Country Facilitator, World Resources Institute & NESDA-CA Cameroon / Forests and Climate Change Initiative	Cameroonian	Africa	Cameroon	Capacity Building on NRM issues including REDD, Participation Strategy development, socio economic issues	Experience in capacity building, working with NGOs and local communities, design of training programs, dissemination activities, project evaluation. Worked as Program Officer, Central Africa Regional Program for the Environment (CARPE/USAID), CIFOR Global Comparative REDD Study (GCS), NESDA-CA & Forest Governance Learning Group.	11	Master in Sociology (Environment and Development) . Enrolled in Diploma of International Law of Environment
<b>Michael Dutschke</b>	Climate change policy advisor and private-sector consultant, BioCarbon Consult, Offenburg.	German	Asia, Latin	Indonesia, Brazil	Methodologies, Reference scenarios Forest policy and strategy	Has worked in Latin American region on capacity building with INWENT and CATIE. Publications include Report on the World Bank Forest Carbon Partnership Facility (DANIDA). Working on Framework contract on climate and development-related issues. 2006 – 2007 GTZ (Fed. Ministry of Cooperation) on Further Development of the Approach on Emission Reductions from Deforestation in Developing Countries. Lead Author in the IPCC WG III, Chapter 9, Fourth Assessment Report. Strong emphasis in climate change issues.	10	Enrolled in Ph.D
<b>Johannes Ebeling</b>	Senior Consultant and Senior Manager Ecosystem Service Markets	NA	Latin America	Ecuador, Bolivia	Consultations, Project formulation Economics of Forestry C projects	Assess carbon projects worldwide (carbon credit potential, risk profile, social and environmental impacts) and contribute to project and methodology development, origination and commercialization of carbon credits, including contract negotiation and financial structuring. policy options for linking carbon markets and forest conservation	5	M.Sc in Environmental Change and Management

<b>Hadi Elkhany</b>	Professor Emeritus at Alexandria University, Egypt and Adjunct Professor at the Faculty of Forestry, University of British Columbia,	Egypt. Permanent resident Canada	Latin America, Asia, Africa	Several countries globally. Widely travelled	Forest policy and strategies	Member the CGIAR Technical Advisory Committee, TAC (1992-1996). He has published more than 100 scientific papers and co-edited one book. Assistant Director-General of FAO in charge of the Forestry Department in January 1998 to 2005. Several international consultancies including Financing SFM (PROFOR/World Bank), Review of IUCN Forest Programme, Forestry Diagnostic Mission to Papua New Guinea, ITTO (Team Leader), and the CPF Strategic Framework on Forests and Climate Change	25	Ph.D, D.SC
<b>Igino Emmer</b>	Private Consultant (Silvestrum)	Dutch	Asia, Africa	Bolivia, Indonesia Suriname Uganda Kenya	Forest Policy and Strategy, Methodologies (Reference Scenarios) Forest monitoring	Assisting UNDP Indonesia in developing a national REDD strategy – subcontracted by GRM International. Involved in methodology development of A/R CDM projects. Pre-feasibility assessment for REDD –in Laos contracted by KfW (Germany). Forest monitoring for C stocks. Member of A/R WG of the CDM.	10	Ph.D
<b>Gustavo Fonseca</b>	Team Leader, Natural Resources, Global Environment Facility (GEF) at the World Bank.	Brazil	All regions	Several countries globally	Forest policy and strategies, Project design and implementation Social issues and consultations Biodiversity	Highly experienced in cross support in program design and implementation of conservation projects in several countries. Worked with conservation international. Expertise in biodiversity, ecology, systematic conservation planning, forest conservation and wildlife management, conservation policy, and interdisciplinary approaches to conservation. Member of several boards and committees dealing in conservation.	20	Ph.D

<b>Eric Forni</b>								
	CIRAD			Gabon				
<b>Michael Kiama Gachanja</b>	National Coordinator, Kenya Forests Working Group	Kenyan	Africa	Kenya	Forest management, Civil society issues, governance & consultations	Coordinate KFWG activities with the overall objective of supporting the sustainable management of Kenya's forests through partnerships with community-based and non-governmental organizations, government agencies and departments, national and international organizations, the private sector, civil society groups and citizens. Also worked as consultant with international agencies such as DFID, IUCN WB e.g. Development of the National Forest Stewardship Council (FSC) Forest Certification Standards for Kenya (October 2007 – Present, on-going) supported by the World Bank/Wild Wide Fund for Nature (WWF) Alliance as the lead consultant. Published several papers.	13	M.Sc (Ecology)
<b>Theophile Gata</b>				DRC	Civil society issues, governance			
	RRN							

<b>Hector Daniel Ginzo</b>	Advisor to the special representation for International Environment negotiations, Ministry of Foreign Affairs	Argentina	Latin America	Argentina	Forest policy and strategy	Policy advice to Ministry of Foreign affairs on land use, land use change and forestry in Argentina. Academic background in plant physiology and eco-physiology. Member of editorial Board of the IPCC Emission Factor Database and Expert reviewer of the inventories in GHG emissions and removals in LULUCF. Eight years experience in climate change related issues.	8	M.SC
<b>Nicolas Grondard</b>	Office National des Forêts - Accueil -(ONF, International)	French	Africa, Asia	DRC, Malawi, Cameroon, Chad, CAR, Argentina, Colombia, Guyana, Phillipines	Project Management, Design of offers of services (technical and financial), Reference scenarios,	Incentives for Reducing Emissions from Deforestation and forest Degradation (REDD). - Agro-economy : farming systems analysis, economic and financial evaluations; - Natural resources management: institutional support to conservation areas, set up of sustainable production systems with local communities. - Feasibility studies of CDM reforestation and REDD projects: identification of project participants and institutional framework, technical and organizational set up, methodological set up (eligibility, baseline scenario, additionality), financial and economic evaluation;	11	M. Sc. Economic & Social Sciences (DAA)
<b>Olivier Hamel</b>	CIRAD	French		Congo Basin				
<b>Haidy Eleonoor Malone Lepelblad</b>	Forest Conservation officer WWF Guianas	Surinamese		Suriname	Forestry and Forest Management	Served in several capacities in the Forestry Sector in Suriname ranging from Management to conservation and wood production	10	BSc Degree

<b>Sabine Häusler</b>	Freelance consultant	German	West Africa	Ghana, Nigeria, Kenya and others in Africa, Indonesia, Nepal, Bangladesh and others in Asia	Rural Livelihoods social issues, participatory management and consultations.	Community Forester sociologist/Gender Expert/Institutional Specialist, Rural and Community Development Specialist. Experienced in addressing of issues in Natural Resources Management including participatory management and conflict resolution. Experience in West Africa and Asia. Worked for UNDP, EU GTZ, to review the Energy for Poverty Reduction Programme in Africa which has set up a network of village based multifunctional energy platform programs, mainly run by local women's groups. Also worked with DGIS Dutch Ministry of Foreign Affairs as Advisor on Energy, Forestry and Biodiversity.	20	MA Development Studies , M.Sc in Tropical and Sub-tropical Forestry
<b>Dr. Arnaldo Contreras-Hermosilla</b>	Forest policy Analysis Consultant, Presently: Fellow "Forest Trends"	Not known. Lives in Italy	Latin America & Caribbean, Central Asia	Several countries globally but mainly Latin America and Caribbean	Forest Policy and strategies, Program Evaluation Economics of forestry projects in CC mitigation	Worked with international organizations such as WB, FAO, UNDP, CIFOR, World Commission on Forests and Sustainable Development. Extremely strong on forest policy analysis and governance issues. Economical analysis of CDM forestry projects. Engaged in policy dialogue for REDD and assessment of World Bank FLEG programme and analysis of World Bank Forest strategy.	35	Ph.D (Natural Resource Economics)
<b>Martin Herold</b>	Scientific officer, GOFC-GOLD project office Freidrich Schiller University, Jena, Germany	German	Latin America, Asia	Brazil, Bolivia, Indonesia, Vanuatu, China	Forest Monitoring, Methodologies (monitoring)	Expertise in remote sensing techniques for estimation of carbon in biomass. Engaged in establishing guidelines for the monitoring REDD as coordinator of GOFC GOLD working group. • Satellite-based monitoring of deforestation and forest degradation. Spatial analysis and modeling of land use change. UNFCCC reporting with focus on LULUCF / REDD implementation; Global land observation and assessment systems ;Capacity building in developing countries on land monitoring; International coordination and standardization (i.e. for UNFCCC relevant development of REDD methodologies). Lecturer and co-organizer for Coalition for Rainforest Nations/GTZ REDD capacity building workshops for 36 countries. Consultant, monitoring expert for design of carbon monitoring system for REDD feasibility study.	6	Ph.D

<b>Yasumasa Hirata</b>	Team Leader of Forest Environmental Changes, Forestry and Forest Products Research Institute , Japan	Japan	Asia (mainl	Thailand, Indonesia, Brazil, Kenya	Forest Monitoring, Reference scenarios, Forest strategy	Specializes in remote sensing technologies in monitoring. Also modeling and accounting forest carbon. Already involved in developing methodologies/ feasibility studies for REDD in Thailand and Indonesia.	16	Ph.D
<b>Alexander Horst</b>	Forestry Consultant, Österreichische Bundesforste AG	German	Asia, Africa	Indonesia, Sierra Leone Ghana Ecuador Malawi Namibia	Methodologies (Reference Scenarios), Monitoring and Evaluation systems	Experience in forest sector development cooperation worldwide. Experience in carbon sequestration issues, among others for the WB's Prototype Carbon Fund and EU DG Environment. Experience in REDD and CDM project development, incl. methodology development (baseline setting, monitoring plan etc).UNFCCC desk reviewer for CDM A/R projects. Well versed in application of project management tools and M & E systems.	16	M.Sc. Tropical/Subtropical Forestry
<b>Melinda Janki</b>	International Lawyer	Guyanese and British	South Amer	Guyana	Legal advice on conservation issues, Indigenous peoples, Rural Livelihoods, social issues and consultations	An international lawyer specializing in the environment and human rights. She provides legal advice to conservation organizations and to aboriginal and tribal peoples in Asia, Africa and South America including international organizations. She recently drafted a new law for Guyana, the Amerindian Act 2006, which legally recognizes and protects collective Amerindian rights, including collective land ownership. Co-Chair IUCN Inter-commission Task Force on Protected Areas; Co-Chair, IUCN Specialist Group on Indigenous Peoples; Chair CEL Specialist Group on Protected Areas		LLB & LLM

<b>Ms. Moeko Saito-Jensen</b>	Forest & Landscape, University of Copenhagen					Expertise in social and political dimensions of forest and natural resource governance and monitoring and evaluation of social, and environmental impacts of development projects. The current research focuses upon global negotiations of REDD and their possible social impacts on the local population in developing countries. Prior work experiences include the World Bank (Forest team, FLEG and PROFOR), Swiss Intercooperation (FLEG), Japanese International Cooperation Agency (Joint Forest Management in India) and The Nature Conservancy. Familiar with the World Bank operations and activities, and monitoring and evaluation.		
<b>Ben H.J. de Jong</b>	Senior Researcher, El Colegio de la Frontera Sur (ECOSUR)	Holland		Mexico	Methodologies (Reference Scenarios)	Strong Research and project oriented experience in climate change mitigation projects including the "Landscape Characterization, Vegetation Analysis, and Carbon Storage Assessment for Chiapas, México", funded by US-EPA . Co-coordinator National Inventory of Greenhouse gas Emissions in LULUCF sector (2005-2006). Engaged in methodological work for CDM A/R and REDD.	12	Doctor in Science
<b>David James</b>	Attorney-at-Law, Legal Consultant in Private Practice, Guyana	Guyanese		Guyana	Amerindian Law	Worked as Legal Officer – Attorney-at-Law, APA.. Assisted in preparation of Alternative Report re. “Situation of Indigenous Peoples of Guyana” submitted by APA and Forest Peoples Programme (FPP) of the UK to the United Nations Committee on the Elimination of Racial Discrimination (CERD). Drafted and presented recommendations seeking improvement to Amerindian Bill 2005 on behalf of four national indigenous peoples’ organizations to Select Committee of the National Assembly which reviewed the Amerindian Bill 2005.	8	Bachelor in Law
<b>Wolfram Kāgi</b>	Consultant (Managing Director, B.S.S Economic consultants)	German	Africa	Kenya, Tanzania	Forestry projects in Climate change, Methodologies.	Consultant for various World Bank National Strategy Studies on the Implementation of the CDM (Bolivia, Colombia, Ukraine, South Africa and Zimbabwe). Lead consultant UNIDO-for CDM methodologies and projects. Lead consultant for REDD project. Desk reviewer for UNFCCC A/R portfolio. Consultant WB for National strategy studies e.g. Zimbabwe, south Africa. Published several papers and reports	10	Ph.D (Economics of Climate change)

<b>David Kaimowitz</b>	Program Officer, Environment and Development, The Ford Foundation, Mexico City		Africa, Asia and Latin America	Bolivia, Costa Rica, Cameroon, and Indonesia, seven Central American countries, Malawi, Tanzania, and Zimbabwe	Forestry issues generally and particularly research related to current forestry issues	Extensive experience in various capacities in forestry. Previous assignments Director General, CIFOR. Designing strategies for impact, coordinating the management team, fundraising, overseeing administration and finances, building partnerships with national and international organizations. Principal economist, Center for International Forestry Research (CIFOR), San Jose, Costa Rica. Manage and conduct research on policies that affect forests in Latin America, with emphasis on decentralization, conflict in forested regions, causes of deforestation	28	Ph.D
<b>Gerald Kapp</b>	International Consultant, Forestry Specialist with focus on Carbon finance	German	Latin Amer	Bolivia, Costa Rica, Chile, Vietnam, Cambodia, Indonesia	Methodologies, Project development & Execution	Has worked on forest and climate change related issues in several countries in Asia, Africa and Latin America. Works for the WB and for the UNFCCC , CDM issues. Undertaken Several feasibility studies in natural resource management. Well published.	28	Ph.D
<b>Marko Katila</b>	Research Director, Partner	Finnish	Africa, Asia	Experience in 15 developing countries. Mainly Thailand Nepal Vietnam Kenya Tanzania Mozambique Lao	Economics, Forest Policy and strategy	Experience in investment analysis and finance, forest asset valuation, market research, sustainable forest management., forest policy and legislation, environmental and social safeguards, forest certification, markets for environmental services, and development of PPPs.	17	Ph.D Forest Economics
<b>Andy Keck</b>	IRG (contractor for USAID)			Madagascar		Forestry in general. Reference in the country.		

<b>Dirk Kloss</b>	Managing Director, Terra Global Capital LLC, San Francisco	German	Several regions	Haiti, Benin, Panama, Suriname, Mauritania, Nicaragua, Madagascar, Vietnam, China, India, Laos	Environmental Management and Sustainable Development, Project implementation, Biodiversity	Socio-economic Geographer with 22 years of experience in environment and sustainable development. Has worked 15 years in project management and operations on field level as well as in headquarters. Designed, implemented, managed, and evaluated environmentally sustainable land & water management, and rural development projects with multicultural, interdisciplinary teams in Latin America, Asia and Africa. Extensive research, advice & publications on biodiversity & finance (debt swaps, trust funds, carbon, etc.) Developed successful strategies and policies with bilateral, multi-lateral, NGO, and local partners. Sound and recognized operations experience in analyzing, evaluating, and facilitating financial and governance structures for many environmental management issues.	22	Masters Economic Geography
<b>Samuel N. Koffa</b>	Associates in Rural Development, Inc (ARD, Inc), Vermont, USA	Phillipines	Asia, Africa	Liberia, Phillipines	Community Forestry, Livelihoods, Community Rights, Land tenure	More than 20 years experience in agro forestry, community forestry, and watershed management. Strong background in forestry extension, research and training. Expertise in forest planning and management, silviculture, seed/nursery research, biodiversity conservation, resource management, biomass-based fuels R&D, non-timber forest products research, project management, and grassroots organizational strengthening. Adept at employing rapid rural appraisal (RRA) and participatory rural appraisal (PRA) approaches and methodologies in project planning and implementation. Implementing the Land Rights and Community Forestry Program (LRCFP) with USAID. Worked on Community Rights Law Project - Liberia	20	Ph.D, Forestry
<b>Rajesh Koirala</b>	Consultant	Nepal	Asia	Nepal, US	REDD, Climate change mitigation and adaptation, community forestry	Possess strong qualitative and quantitative analytical skills, with two years of professional experience working on community forestry. reviewing project appraisal documents, annual performance reports, and terminal evaluation reports, regarding: relevance to the GEF operational programs and country priorities; effectiveness; efficiency; impacts and catalytic roles; financial, institutional, socio-political, environmental sustainability of outcomes; implementation; monitoring and evaluation; and lessons and recommendations for future projects. Community Forestry Consultant - Nepal Swiss Forestry Project	5	Masters (Forest Science)

<b>Harrison Ochieng Kojwang</b>	Independent Consultant	Kenya	Africa	Zimbabwe, Namibia, Kenya	Forest management, Forest Policy & strategy, Forest biodiversity"	Regional Representative, WWF-Southern Africa Program Office .Member of the WWF Steering Committee on Energy and Climate Change, Worked as Forestry professor, government forest department regional representative for international NGO.	21	Ph.D
<b>Peter De Koning</b>	Owner, adviser and program coordinator - Mekon Ecology	Dutch	South America, Africa Asia	Brazil, Bolivia Peru Colombia El Salvador Ghana Indonesia	Forest Biodiversity, Rural Livelihoods Consultations Co-benefits	Ecosystem restoration, conservation, biodiversity and livelihoods. Work related travel to several countries. Stakeholder consultations between the public sector and private sector for natural resource management and sharing of benefits. Specializes in sustainable use of forest resources including biodiversity.	14	M.SC (Biology)
<b>David Guba Kpelle</b>	Consultant- Conservation Biologist	Ghanaian	Africa	Ghana	Country expert in Natural resource management and assessment	Vast experience in various capacities in forest, coastal zone, wetlands and wildlife management in Ghana, especially in natural resources assessment, site and species protection, management capacity building and development of strategic and management plans. 14 years of working with the Wildlife Division of the Ministry of Lands and Forestry under the Forest Resources Management Project in Ghana. Experience in biophysical assessment of natural resources and in developing strategies and action plans to improve their conservation, sustainable management and monitoring. Trained natural resource managers, NGOs and local communities in advocacy, stakeholder participation, cocoa agro forestry, design and implementation of strategies for sustainable natural resource use, monitoring and management. Worked as Prog. Manager, WWF-West Africa Prog. Office .	18	M.Sc
<b>Marijke van Kuijk</b>	Consultant	Netherlands	Asia	Vietnam, Guyana	Resource assessment	Developing a large scale biomass monitoring program in relation to REDD; testing methods, capacity building within Forestry Commission, training field staff, preparing technical reports, communication and corporation with stakeholders and donors.	5	M.Sc

<b>Hosny El-Lakany</b>	Consultant	Egyptian			Forest policy and strategy	Retired as Assistant Director General of FAO. Now involved in international consultancies e.g. Financing SFM (PROFOR/World Bank), Review of IUCN Forest Programme, Forestry Diagnostic Mission to Papua New Guinea, ITTO (Team Leader), and the CPF Strategic Framework on Forests and Climate Change (Lead author).	25	Ph.D (Forestry)
<b>Nadine Laporte</b>	Woods Hole Research Center	US		Congo basin				
<b>Michael Linddal</b>		Dutch	South East Asia, Africa	Cambodia, Laos, Nepal, Kenya, Malawi, Tanzania	Natural resource and environmental economics.	Forester and environmental economist with knowledge and experience with design and reviews of environmental programmes. He has been a process facilitation consultant on the formulation on Danida environmental programmes in South Africa and Cambodia and involved in annual sector reviews in Nepal, Cambodia, Thailand and Kenya. Experience in designing, appraising and evaluating environmental assistance projects. Moreover, lecturing experience and external examiner at university level in forest policy and natural resource economics. He has been Danida technical adviser on the MIFRESTA programs in Southeast Asia in Cambodia and Laos as well as regional projects, e.g. Asian Institute of Technology, and in Eastern Africa in Malawi and Tanzania, and in South Africa.		

<b>William Keith Lindsay</b>	Consultant, Environment and Development Group, UK	British and Canadian	Africa, Southeast Asia, Latin America, the Caribbean, North America and Europe	DRC, Cameroon, Equatorial Guinea, Gabon, Central African Republic, Gambia, Ghana, Vietnam and several others	Community based natural resources management; programme design, monitoring and evaluation; • institutional analysis, change management and capacity building	Project manager and environmental biologist with over 30 years' professional experience in 15 countries, in planning, conducting and evaluating projects, and in senior administrative and leadership roles. Dr Lindsay joined The Environment & Development Group in 1994, since which time he has undertaken a variety of long- and short-term overseas consultancy missions, both independently and with EDG in Africa, the Caribbean the Middle East and Southeast Asia in the fields of climate change mitigation/ adaptation, project/program monitoring and evaluation, institutional analysis, environmental assessment and land use planning, information systems, protected area monitoring and management, and biodiversity research and conservation. Some examples of his engagement include: Scoping potential DFID engagement & support on REDD for Africa, Review of past success and future priorities for REDD-related forest interventions in tropical Africa.	20	Ph.D Zoology
<b>Cyril Loisel</b>	Climate and Forest Expert, ONF-International/IDD RI	French	Africa, Latin America, Asia	Ghana, Congo Basin, Madagascar, Phillipines, Colombia, Chile, Brazil, Tanzania, DRC	Climate governance, Indigenous peoples, social issues and stakeholder consultations, Policy, Options assessment for REDD	Responsibilities include coordination of Iddri's climate programme, including supervision of a team of 15 and over 20 on-going projects in the areas of Global climate governance, Pathways towards carbon sober societies, Climate and development policies. Expertise on Reducing emissions from deforestation and forest degradation: Coordination of a review of 7 outstanding issues for the inclusion of tropical forests in the international climate governance with ONF-International and AFD . Elaboration of an Options Assessment Report on REDD with the Meridian Institute for the Government of Norway, following extensive consultations with governments, civil society, indigenous peoples' representatives, and other key stakeholders.	13	Masters (Development Economics & Project Management )

<b>Raymond Lumbuenamo</b>	Directeur de Conservation pour la RDC – Kinshasa, WWF			DRC				
<b>Ernst Lutz</b>	Consultant	Switzerland	Africa, Asia	Ethiopia, Tunisia, Eritrea, Phillipines	Agriculture and Environmental Economist; NRM, Project management, incl. monitoring and evaluation;	Worked as Task team leader for Lake Victoria Environmental Management Project (multi-country/multi-sector) project. Experience in Land Degradation Sector, Ecotourism and Conservation of Desert Biodiversity. Well published	25	Ph.D (Agriculture and Resource Economics)
<b>Sango Mahanty</b>	Research and Teaching Fellow, Resource Management in Asia-Pacific Program, Research School of Pacific and Asian Studies, Australian National University (October 2007-present)	Australian	Asia and Pacific		Governance, Rural livelihoods, Social Issues and consultations	Over the last 15 years extensive practical experience and a strong conceptual grounding in the social dimensions of natural resource management, with a particular focus on participatory approaches, governance and livelihoods. Current research collaborations on forests and payments for environmental services and on forests and livelihoods more broadly (focusing on the Asia-Pacific).	15	Ph.D (Development Studies)

<b>Jorge Malleaux</b>		Peruvian						
<b>Jean Noel Marien</b>	CIRAD	French		Congo Basin				
<b>Omar Masera</b>	Investigator C, Research center in Ecosystems, Independent National University of Mexico.	Resident in Mexico	Latin America	Costa Rica, Mexico	Natural resource management and climate change, bioenergy	Vast Experience on climate change and natural resource management issues. Key professional positions include Member of the IPCC, Coordinator. Program of Mexico on Climatic Change, Lines National Inventory of Gas discharges of Forest Greenhouse-Sector Effect and Office of Mitigation for the Climatic Change. National institute of Ecology. Environmental Protection World-wide Agency- UNEP. Associate coordinator. Project "Carbon sequestration and Afforestation in Forest Ecosystems" (CASFOR). Union European-Institute de Ecología, UNAM-University of Rich Wageningen-Holland-CATIE-Coast European Forest Institute-Finland. Expert reviewer. National plan of Climatic Action of Mexico. National institute of Ecología (INE). consultant for several international agencies.	25	Ph.D (Energy)

<b>John J. Mason</b>	Executive Director, Nature and Conservation Research center (NCRC), NGO based in Ghana	Canadian	Africa	Ghana, Liberia, Nigeria	Project Design, Management, Monitoring & Evaluation; Capacity Building and Organizational Development; Natural Resource Management and Protected Areas	20+ years of experience in natural resource management and protected areas initiatives in West Africa. Experience in payments for ecosystem services initiatives in Ghana, Liberia and Nigeria. Particularly involved in REDD carbon process in Liberia and Ghana. • Team Leader for 3 years on \$8 million CIDA-funded DISCAP (District Capacity Building Project) guiding capacity building and organizational development investments in regional and local level institutions in northern Ghana	20	M.Sc
<b>Patrick W. Matakala</b>	International consultant	Zambia	Africa	Malawi, Tanzania, Zambia	Forest policy & strategy formulation and implementation	Formulation and implementation of Community/Public/Private Sector Partnerships (C PPPs) in sustainable management and development of natural resources. Experience with coordinating, leading and managing the ICRAF Southern Africa Regional Agroforestry Programme in the SADC including knowledge management. Environmental and economic research on sustainable management and development of natural resources. Clients include WWF, UNDP, FAO, Danida	15	Ph.D
<b>Agustin Mbunga</b>	Executive Director, CODELT	Congolaise	Africa	DRC	Lawyer, specialist in environmental legislation and local law affecting the management and use of natural resources	Worked with several international organizations and Non governmental Organizations	7	JD (Law degree)

<b>Leticia Merino</b>	Professor, Instituto de Investigaciones Sociales of the Universidad Nacional Autónoma de México (IIS- UNAM).	Mexican	Latin Amer	Mexico	Social Anthropologist	Has worked as an academic in the field of rural development and environment for the last twenty five years and specifically on forest communities in Mexico for the last 17 years. Member of a Mexican NGO's working on forest communities, engaged in forest certification, environmental and forest policies analysis . working on themes of common property, collective action, and sustainable governance of common and public goods. Experience as a consultant for the World Bank, the Ford Foundation, the National Forest Commission (CONAFOR) and the North American Commission for Environmental Cooperation. Affiliated with universities overseas.	25	Ph.D
<b>Peter Akong Minang</b>	Scientist / Programme Associate, ASB Partnership for the Tropical Forest Margins at the World Agroforestry Centre (ICRAF), Nairobi Kenya	Cameroonian	Africa	Cameroon, Liberia, Kenya, Tanzania Congo Basin, India	REDD policy, Social development	In his current role he has been leading and co-leading funding proposal development and Providing guidance / harmonization of research methodology and synthesis of REDD and Policy research across six ASB countries / sites (Indonesia, Cameroon, Peru, Thailand, Philippines and Colombia). Also involved in implementation of Science policy interactions / forums on REDD and other issues relating to reducing deforestation along tropical forest margins. Interests include Forests and climate change mitigation (Including REDD and AFOLU); Forest services and economic and social development; community forestry, community carbon forestry and watershed management; Participatory Geographic Information Science (P-GIS) across scales.	13	Ph.D
<b>Mr. Søren Moestrup,</b>	Senior Advisor, Forest & Landscape, University of Copenhagen,	Danish			Forest Management, Siliviculture	Substantial knowledge on all aspects of management, silviculture, rehabilitation and conservation of tropical forest, with special emphasis on organizational aspects and involvement of stakeholders. Decades of practical experience on management, rehabilitation and conservation of forests in the tropical region of the world. Qualified knowledge of all aspects of REDD+.		

<b>Roger Muchumba</b>	DRC				Civil Society, IP issues			
<b>Dieudonné Trinto MUGANGU,</b>	President & Executive Director of the Mugangu Foundation (FONDAMU).	Congolese (based in Canada)	Africa	DRC, Gabon, Congo and several other African countries	Protected Areas Management, Community Participation in Conservation and Self-Reliance Schemes, Project Design, Management and Evaluation in Natural Resources, Environmental Capacity Building for Sustainable Development,	Several years of experience in Natural resource Management and formulation of project proposals in African Countries. participated in the formulation of the Congo protected areas full project in 1997. He has recently written proposals and secured the funds in the GEF to support capacity development initiatives (systemic, institutional and individual capacity building) for Ghana, Ivory Coast, Congo, DR Congo, Burundi, Sao Tome, CAR, Guinea, Mali, Burkina, Togo, Benin, CAR, Equatorial Guinea, Guinea-Bissau and Senegal. I secured a grant from the Rockefeller Foundation and completed a post-doctoral research in 2000 on sustainable land use management and conflict resolution between local communities and park management authorities in the Democratic Congo. Expert of the DR Congo Climate Change Task Force and Negotiator for DRC . Consultant for several International Organizations	19	Doctor of Philosophy in Wildlife Ecology
<b>Antoine Mugnier</b>	Project officer, Forest Resources Management, LULUCF, CDM etc.	French	Africa	CAR, DRC, Congo	Monitoring and appraisal of forest projects, Carbon monitoring plan design			Agronomy Engineer (specialized in forestry)

<b>Daniel Murdiyarso</b>	Senior scientist , International Center for Forestry Research, Bogor, Indonesia	Indonesian	Asia	Indonesia	Forest Policy & strategy, Methodologies( Reference Scenarios) Forest monitoring, Co- benefits	Lead Author, IPCC., TAR, LULUCF. Member of the Technical Advisory Group, WB/BioCarbon Fund, 2003, Modeling global change impacts, co-benefits. Many years experience in several forestry related issues	18	Ph.D
<b>Brian C. Murray</b>	Director for Economic Analysis, Nicholas Institute for Environmental Policy Solutions	US	NA	NA	Economics of forest and CC, Reference scenarios Forest policy and strategies, Registries	Widely recognized for his work integrating economic and biophysical models to assess greenhouse gas mitigation strategies in agriculture, land-use change, and forestry, and energy. Dr. Murray has been invited as a co-author of several national and international assessments of forest resources, especially related to climate change. Of particular note, he was a convening lead author of the IPCC's Special Report on LULUCF. Economic modeling of US federal cap-and-trade legislative options. Several publications in reputed journals	15	Ph.D (Resource Economics)
<b>MARIO ALFREDO NANCLARES</b>	Consultant	Argentina	Latin America	Argentina, Chile	social environment management, development and implementation of public consultation and disclosure programs, social evaluation	He has served as team coordinator of important social- environmental studies, including the development and execution of resettlement programs and public consultation with indigenous communities and other key stakeholders, in compliance with World Bank and IFC guidelines. His most recent experience includes the coordination of the social assessment and consultation of Potasio Rio Colorado mining project (Mendoza-Argentina), as well as the execution of socioeconomic studies for El Pachón project (Argentina- Chile).	10	Masters Public Administrati on, Masters in Political Science

<b>Peter Elliot Neil</b>	Coordinator Regional Forest Programme and Climate Change Focal point, Asia, IUCN, Bangkok	British	Asia	Nepal, Pakistan, Srilanka, Vanuatu Honduras	Rural Livelihoods, Social issues and consultations	Specializes in Strategic planning; programme and research planning, implementation, management, monitoring and evaluation; natural resources policy, legislation and management, including protected areas; sustainable livelihoods approach; risk management assessment and conflict sensitive development in fragile states; and environmental education. Past positions with DFID as Livelihoods advisor, conflict sensitive development advisor. In particular very experienced in Nepal. Published over ninety papers and reports	25	M.Sc (Forestry)
<b>Daniel Nepstad</b>	Senior Scientist, Woods Hole Research Center, USA	US	Latin America, Africa	Brazil	Forest policy and strategies, Reference scenarios	Tropical forest Ecologist, Involved in conservation of Amazon forests. Scientist and Founding President-Amazon Institute of Environmental Research, Belém, Brazil.	21	Ph.D
<b>Ibrahim Njobdi</b>				Cameroon	Indigenous Peoples			

<b>Ruth Nussbaum</b>	Director of ProForest	British	Several regions	Several countries globally	Forest policy and strategies, Methodologies (monitoring & verification) consultations	Worked with certification and sustainable management of natural resources for 20 yrs. Expertise in global forest certification programme, advising governments, industry and NGOs on responsible natural resource management, developing international and national standards and writing a range of guides and books. She has worked in more than 40 countries and has vast experience of developing, interpreting and implementing policies and processes for delivering sustainable management and independent verification of natural resources. Member of the Royal Society's Southeast Asia Rainforest Research Committee.	20	Ph.D
<b>Michael Obersteiner</b>	International Institute for Applied Systems Analysis (IIASA)	Austrian	NA	NA	Policy analysis, Methodologies (Reference Scenarios) Economics of REDD	Modeling, trend analysis in GHG emissions and costs in REDD. Policy analysis. Clients include WB, UK government and European commission. Works with Global Earth Observations (GEO) secretariat. Several publications in peer reviewed journals.	12	Ph.D
<b>Max Ooft</b>	Policy Officer , Bureau VIDS (Bureau of the Association of Indigenous Village Leaders in Suriname); and Director/Independent Consultant Bureau MDO (Advisory Bureau on Human Rights and Development)	Suriname		Suriname, Trinidad and Tobago	Indigenous peoples' rights, environment and sustainable development	Work Experience with several international organizations , COICA and International Alliance of Indigenous and Tribal Peoples of the Tropical Forests mainly on indigenous issues. Served as the first General Director of National Institute for Environment and Development in Suriname (NIMOS) which was established under an IDB-funded project of the Government of Suriname; pioneered in designing the structure and establishing partnerships with various actors incl. private sector. • Currently engaged with technical and policy work for community-based, national (Suriname), regional (Amazon region) and international indigenous organizations, particularly on indigenous peoples' rights in relation to global environmental negotiations	20	Doctorate (Medical Sciences), Masters Business Administration

<b>Keith Openshaw</b>	Independent Consultant	US	Asia, Africa	Several countries globally	Forest Strategy and Policy, Project Management	Over 40 years experience in forestry, forest economics, forest industries, rural development encompassing agriculture, forestry and other natural resources, the environment and renewable energy. Worked in over 50 countries with 17 years residence in developing countries. Experience in Carbon accounting, greenhouse gas methodology, mitigation and carbon sequestration, Economic and financial analyses, forecasting and planning. Several assignments with GEF and other international organizations.	40	B.Sc.(Forestry)
<b>Pablo Pacheco</b>	Senior scientist, CIFOR	Bolivian	Latin America, Asia	Brazil, Bolivia, Indonesia,	Forest Governance, Livelihoods, Community based Natural Resource management	Experience in research on the implications of global trade and investment trends on people's livelihoods and forest landscapes change. Other research areas include forest policies and markets, forest conservation and development and community forestry. Leader of Research Domain 5: "Managing the impacts of globalized trade and investment on forest and forest communities". Managed and conducted research on policies that affect forest in the Bolivian case, and assessing the implications of decentralization on forest management. Activities conducted as part of the "Causes of Deforestation, Forest Degradation, and Changes in Human Welfare"	19	PhD, Geography.
<b>Michelle Passero</b>	Senior Climate Policy Advisor, California, The Nature Conservancy				Policy development, National Registry	Represent and advise TNC California and state agencies on the implementation of the California Global Warming Solutions Act of 2006 related to forests and land use policies; Lead representative and advisor for updates to the California Climate Action Registry Forest Protocols. Formerly with the Pacific Trust Fund, then with Ecosureties. Participated with WRI/WBCSD protocol development.	10	LLM

<b>CORNELIS A.F.PIGOT</b>	Senior Consultant with Pall Projects Supply.	Surinamese	South Amer	Suriname	Development, and Development cooperation, Education, Forest Policy,	Has held several positions in Suriname including as Minister of Education and Human Resources Development and as elected representative of Suriname in the Executive Board of UNESCO. He has worked on numerous projects and studies in the fields of education, development cooperation, structural adjustment, regional development, tourism development, marketing, project management, activities Forum NGO evaluation, IDB loan to Ministry of Education mid term evaluation, forest policy formulation, management support of agencies, social impact assessments and environmental profiles. Now he is very much involved in environmental issues and in innovative financing mechanisms for sustainable development.	30	Doctoral degree in Geography
<b>Catherine Jeanne Potvin</b>	Full Professor, Department of Biology, McGill University	Canadian	Latin Amer	Panama	Rural livelihoods, Reference Scenarios, Biodiversity	Well established research programmes in carbon stocks assessments. Work on livelihoods impact of conservation, linkages between climate change and biodiversity. Negotiator for Panama for the UNFCCC process. Scientific coordinator TropiFACE, Panama. Research Affiliate, Smithsonian Tropical Research Institute	20 yrs	Ph.D
<b>Kyeretwie Opoku</b>	Coordinator Civic Response	Ghanaian	Africa	Ghana	Social issues, community rights and policy advocacy	Provides policy advocacy support to communities and civil society organizations. Sought to support the rights of the marginalized to a better life based on a democratic restructuring of society's political and economic institutions. Worked in various capacities in Ghana and in the United Nations, DANIDA as advisor on legal and policy issues	30	Barrister ar Law
<b>Maureen Angela Playfair</b>	Head forestry department CELOS	Surinamese	Latin Amer	Suriname	Forest Policy	Project coordinator: Promoting Sustainable Management of the Community Forest of the Maroon community in Marchalkreek. Country Assessments: Law Compliance and Prevention and Control of Illegal Activities in the Forest Sector in Suriname" (as STC with WB)	15	Master of Science, Social Forestry

<b>Albertus Hadi Pramono</b>	Dissertation Research: Mapping dialogues in mapping: cartographic encounters and spatial literacies within counter-mapping in West Kalimantan	Indonesian		Indonesia, Hawaii	Indigeneous issues, Political economy of natural resource management, Land Tenure	Board Member, Indigenous Peoples' Knowledge and Rights Commission of the International Geographical Union. Study on the tenurial systems of indigenous peoples in Indonesia, a part of FPIC program of AMAN – Indonesian Alliance of Indigenous Peoples	12	MA geography
<b>Tovondriaka Andriamanganiaina Rakotobe</b>	??	Malagasy	Africa	Madagascar	Public administration, project management, environmental economics, and environmental management	was a Director at ONE, a former member of MNP board and a former General Secretary of Ministry of environment	15 year of experience in sustainable development	Masters Degrees
<b>Winston Ramautarsing</b>	Managing director, Proplan Consultancy	Dutch (based in Suriname)	Latin America	Suriname, Guyana, Jamaica	Development economics, Evaluations	Has worked on business plans, evaluations and forestry related assignments with several international organizations e.g.USAID: Institutional Sector Analysis: Forestry (1997) - FAO: The establishment of a Forestry Management and Production Control organization in Suriname	17	M.Sc
<b>Fernando Rello</b>	Professor at the Faculty of Economics, Universidad Nacional Autónoma de México (UNAM).	Mexican	Latin America, Caribbean	Car, DRC, Congo	Economist with specialization in development and agricultural economics; agricultural and rural development policies	Consultant to various international organizations (ECLAC, FAO, World Bank, UNIDO).National Advisor in the fields of agricultural and food policies to different government institutions. the preparation of agricultural development plans, projects and policies; the provision of technical backstopping to FAO/ESPP field projects in the region; assistance to governments in the fields of agricultural policy analysis and formulation of agricultural development strategies; the organization of training events on agricultural planning and policies.	20	Ph.D

<b>Gary Phillip Richards</b>	Group Head, Land Management and Special Programmes Group, Govt. Department of Climate Change, Canberra	Australian			National registry, Carbon accounting and role of remote sensing	Actively engaged in development of Australia's National C accounting system; Land sector policy and programmes and land sector analysis and technology. . His work background is varied, having at various times worked at all tiers of government, with varied duties in land related activities such as forestry, conservation, urban systems. This has been at management, administration, research and strategic planning levels. His diverse academic background includes an emphasis on the human dimensions of land management.	20	Ph.D
<b>Carmenza Robledo</b>	Co-head of the Environment and Climate Change Group in Intercooperation	Colombian and Swiss	Asia, Latin America Africa		Methodologies (Reference Scenarios), REDD policy and strategies	20 yrs in development cooperation. Since 10 years focused on the thematic on Climate Change and Natural Resource Management, combining scientific work, policy development and project design and implementation. Wide experience in the political issues as well as and technical matters related to mitigation options in the forestry sector, including modalities and procedures, baseline and monitoring methodologies and institutional and social impacts in REDD, Restoration, Forest Management and Conservation.	20	Ph.D (Natural Sciences)
<b>Marcelo Theoto Rocha</b>	Researcher at CEPEA - ESALQ/USP , Brazil	Brazil	Latin Amer	Brazil	Methodologies, Forest policy	Background in Applied economics, Experience with CERT modeling. Involved in methodological work as member of A/R working group of CDM, Alo member of R & I team of CDM UNFCCC. Involved actively in REDD negotiations of UNFCCC	10	PH.D
<b>Peter Saile</b>	GTZ	German	LAC and South Africa	Ecuador, Honduras, Brazil, Colombia, South Africa, Mozambique	Forest Policy, cross-sector dialogue/ NFP's; participation of local stakeholders incl. indigenous peoples	Forester and anthropologist with 22 years of experience in development cooperation in forest related topics; from forest extension, agroforestry, protected areas and buffer zone management to forest legislation and policy; forest related aspects of CDM; REDD process under UNFCCC.	22	

<b>Alejandro Eduardo Guevara Sanginés</b>	Director de la División de Estudios Sociales Universidad Iberoamericana Campus Ciudad de México	Mexican	Latin Amer	Mexico	Forest Management, Environmental Management, Sustainable Development	Worked with several international organizations and Non governmental Organizations. Director of the Division of Social Studies Latin American university Campus City of Mexico (from March of 2006). Director of the Department of Economy Latin American university Campus City of Mexico (July of 2004 - March of 2006). Professor-Investigator Department of Economy, Latin American University Campus City of Mexico (from October of 1998); of Environmental Economy. Coordinator of the Viable Development and Research program in environment. Latin American university, City of Mexico (from January of 1999). Coordinator of the Subsystem in environment of the races of Political Science and International Relations	17	Ph.D
<b>Gustavo Ramirez - Santiago</b>	Advisor to the National President of the National Commission of Natural Protected Areas. Mexico	Mexico	Latin Amer	Mexico	Indigenous issues, biodiversity conservation	Extensive experience in various capacities in M exico working on natural resource management aspect with indigenous communities, resource survey and mapping, remote sensing. For example, to design the project for Biodiversity Conservation Plans for Indigenous Communities in the Mexican states of Oaxaca, Guerrero and Michoacán., Forestry Management and Conservation Plans for 35 Indigenous Communities in the Mexican states of Durango, Colima, Jalisco, Michoacán, Puebla, Oaxaca and Quintana Roo and To design sustainable development and biodiversity conservation plan for 300 peasant and indigenous communities in 14 Mexican states including payment for environmental services (water and carbon fixation), natural risks and hazards, agro forestry systems, community forestry, participatory GIS, participatory land use and land planning process.	20	M.SC

<b>Jayant Sathaye</b>	Senior Staff Scientist, Lawrence Berkley National Laboratory, California	US & India	Asia, Latin America Africa	Several countries globally. Mainly Mexico Peru Bolivia China	Forest Monitoring, Methodology (reference scenarios) Economics of REDD, opportunity costs	Several year of experience in forestry issues. Co-coordinating lead author for IPCC. Reviewed several GHG projects for GEF. Several consultations for UNFCCC in energy and forestry sectors. Strengths: Carbon assessments, potential and feasibility of forestry CC mitigation projects. Trends in GHG emissions.	34	Ph.D
<b>Ms. Annalisa Savaresi</b>	Research Fellow, Faculty of Law, University of Copenhagen,					Specialises in international and comparative environmental law and has researched specifically in the areas of climate change, environmental liability, biodiversity conservation and the environmental jurisprudence of international human rights bodies. Her current research deals with measures for reducing green house gas emissions from deforestation and forest degradation in the international regime to fight climate change. Annalisa is member of the International Union for the Conservation of Nature (IUCN) Commission on Environmental Law. Prior to her appointment at the University of Copenhagen, she has worked and lived in the United Kingdom for several years, working, among others, as a research assistant at the University of Cambridge and as an attorney. Annalisa holds law degrees from the University of Brescia (Italian law degree) and the University of Durham (LLM, MPhil).		

<b>Jefferey Sayer</b>	Member of scientific advisory committee to UK Department of the Environment and adviser to research directorate of the European Union. Based in Switzerland	British	Asia	Indonesia, Thailand, Mali, Burma	Forest policy and strategy, Local livelihoods, Social issues and consultations	Conducted studies on conservation issues for the World Bank, the European Union, IUCN, FAO and the ITTO. Served as FOUNDING DIRECTOR GENERAL, Center for International Forestry Research, Bogor, INDONESIA. Extensive experience of working with international organizations on conservation issues	15	DSC Ecology sciences
<b>Tomás Schlichter</b>	Co-ordinator, National Forestry Research Programme- National Institute for Agricultural Technology (INTA).	Argentina	Latin America	Argentina, Costa Rica	Forest Management, Co-benefits, Evaluation	1998- presently. Co-ordinator, Masters Programme in Ecology and Management of Forest Ecosystems. Univ. of Buenos Aires (UBA). 1992-1993. Researcher of the Project Control a- Co-ordinator of the "Conservation for Sustainable Development in Central America" project, CATIE -IUCN. Funded by ASDI (Sweden) and NORAD (Norway) CATIE- Turrialba, Costa Rica., Monitoring of desertification in Patagonia. (INTA-GTZ).	15	Ph.D
<b>Johannes Scholl</b>	GTZ	German	Central and South America and Europe		National and sub-national REDD strategies and policies; Environmental Funds and Finance	Economist with experience as development practitioner and policy advisor in Central and South America and Europe. Assessment of strategic approaches, assessments of institutional structure of financial mechanisms, conceptualization of REDD sector policies and complementarities of FCPF with bilateral donor commitments. First-hand experiences with ongoing REDD implementation in Brazil.		

<b>Paul Kanyinke Sena</b>	Kanyinke Sena, Regional Representative - East Africa, Indigenous Peoples of Africa Coordinating Committee	Kenya	Africa	Anglophone Africa, Uganda, Tanzania, Congo	Indigenous peoples, Social issues and consultations	IPAAC indig. peoples organiz, Kenya. At Buju IP workshop. One of the 30 members in “The Forest Dialogue” hosted by the University of Yale and supported by the WBCSD and the World Bank. This being hosted as a road map to Copenhagen by the forest part of the Conservation International process on Indigenous Peoples and Climate Change launched on 25th April, 2008 at the UNPFII at the UN in New York. Member of 15 member community introduced by the Community, Climate and Biodiversity Alliance ( <a href="http://www.climate-standards.org">www.climate-standards.org</a> ) for acceptable carbon project around the world.		Bachelors (Law)
<b>Achmed Renaldo Sheikkariem</b>	Chairman of the FTeW Carbon Readiness R&D group	Surinamese	Latin Amer	Suriname		Capacity Building through gathering and dissemination of information regarding Carbon Readiness activities. development & demonstration for application of agriculture and industrial waste for bio-fuels, sustainable management of natural resources		
<b>Lucky Sherpa</b>	President, National Network of Indigenous Peoples	Nepal	Asia	Nepal	Indigenous peoples, Social Issues and consultations	Executive Director, Himalayan Indigenous Women Network (HIWN); Advisor, Nepal Federation of Indigenous Nationalities. Focuses on gender issues.	9	Masters (Economics)
<b>Markku Tapani Simula</b>	Managing Director, Ardot Oy, Consulting in forestry, forest industries and environment	Finnish	Africa, Asia	Several countries globally including Brazil Thailand Congo Basin	Forest management, Forest policy and strategy Forest certification	Work experience in about 70 countries. Work experience in several cross cutting issues e.g. forest management strategy, certification of timber products, Sustainability Impact Assessment. In 2007, engaged in Building Capacities of the Members of the Network of Central African Forestry and Environmental Training Institutions (RIFFEAC); Feasibility Study on the Implementation of Training Programmes in Forestry and Forest Concession Management in the Congo Basin, Design and the Consultation Process of the Global Forest Partnership.	23	Ph.D

<b>Adrien Sinafasi</b>	Chairman of the Board of Directors of FOSCAL (Forest Service of Indigenous and Local Peoples)	Congolaise	Africa	DRC	IP issues (Pygmies)	Responsible for Programs to the AAPDMAC (Action of Support for the Protection of the Rights of Minorities in Central Africa). 2002 - 2006 : President of the Steering committee, then Management Committee of Network of Associations Autochtones Pygmies (RAPY). Since February 2009 : Chairman of the board of FOSCAL (Forest with Service of the Indigenous and Local Peoples	13	Bac or partial Bac(French)
<b>T.P.Singh</b>	Regional Group Head, Ecosystems and Livelihoods	Indian	Asia	Indonesia, India.	Rural Livelihoods, social issues and stakeholder consultations	The focus of work to ensure that Ecosystems and Livelihoods are both taken care of in sustainable development issues. specific responsibilities include enhancing the efficacy of participatory approaches for programme and project planning and assessment; promoting quality assurance of project development and implementation; fund raising and managing donor relationships; monitoring and evaluation of Ecosystem and Livelihood Group's organizational performance. Previously Vice chancellor of TERI university and several positions with Government of India. Author for IPCC, LULUCF.	22	D.Phil (Botany)
<b>Margaret Skutsch</b>	UHD (Associate professor/senior lecturer), Technology and Sustainable Development Section, University of Twente, Netherlands	British	Africa & Asia	Nepal, Tanzania, Srilanka, Senegal	Rural Livelihoods, Social Issues and consultations	Advisor to the Netherlands Ministry of Development Cooperation (DGIS) in the area of energy and climate change, with particular attention to Africa. Strong research focus in community forestry.	34	PH.D
<b>Toby Johnson Smith</b>	Conservation International				National Registry	Instrumental in developing CCBA and VCS.VCS has designated several "official registries for their credits.		

<b>Jim Smyle</b>	Independent Consultant (WB)	US	Africa, Asia Latin America	Panama, Honduras Mexico Thailand	Forest policy, Forest Management, Forest Biodiversity, Project implementation, Project evaluation, Stakeholder consultations"	Experienced in natural resources project management and implementation. Worked in several regions and countries as WB staff. Areas of experience include Indigenous & Community Biodiversity, evaluation of implementation effectiveness and institutional impacts country project portfolio e.g. IFAD, Stakeholder Management and Conflict Resolution and country evaluations.	20	Master Of Science (Forest hydrology)
<b>Rogeliano Solís González</b>	Cacique's technical advisor on environment issue.	Panamanian		Panama	Indigenous peoples, Social issues and consultations	Project Leader at Conservation and Development Strategy Associates, (CODESTA), 2000 – 2006. Engaged in carrying out the projects in Kuna Communities, keep contact with local authorities, gather relevant informations about the Kuna necessities, explain to the leaders about the nature of the project or opportunity, and preparing the proposal .	7	Bachelor of Environmental Science
<b>Charlotte Streck</b>	Director, Climate Focus BV	German	NA	NA	Forest Policy and Strategies (Regulatory &Legal)	Expert on the law and policy of climate change and emissions trading. She advises on the regulatory framework of the UNFCCC, the Kyoto Protocol, the European ETS, emerging US emissions trading systems, and voluntary carbon standards. She has extensive experience in drafting and negotiating complex carbon agreements, related, among others, to establishing carbon funds (e.g. Biocarbon fund), implementing projects, and the contracting intermediaries. Design of carbon procurement schemes. Worked as Senior Counsel Legal with WB. Actively engaged in REDD dialogue.	17	Ph.D
<b>Brent Murray Swallow</b>	Global Coordinator, ASB Partnership for the Tropical Forest Margins (ASB), World Agroforestry Centre, Nairobi, Kenya		Africa	Kenya	Rural Livelihoods, Co-benefits Program evaluation	Work with ASB network focuses on enhancing agricultural productivity without deforestation or degradation of environmental services at the tropical forest margins. The partnership connects international agricultural research centers, national research systems in the humid tropics of Africa, Latin America and Southeast Asia, and 70 other organizations across the globe. Impact assessment of programs and policy options.	15	Ph.D

<b>TACHIBANA Satoshi</b>	Team Leader of Northern Forest Policy and Economics, Hokkaido Research Center, Forestry and Forest Products Research Institute	Japanese	Asia, North America, Oceania, and Europe	China, South Korea, Malaysia, Indonesia, U. S., Canada, New Zealand, Australia	Forest Economics, Forest Policy	Expertise in modeling global wood products market and experiences in field surveys of forestry practices and of energy consumption in wood transportation in many countries.	14	Ph.D
<b>Timm TENNIGKEIT</b>	Unique Forestry Consultants, GmbH	German	Asia, Africa	Uganda. Thailand, China, Kenya, Costa Rica	Carbon Finance and Bioenergy expert; Project Development Forest Management	Proven track record with the World Bank, FAO & private Carbon Funds in financing, designing and & implementing forest & agricultural carbon finance projects for the compliance and the voluntary carbon market. Substantial working experiences with commercial forestry and bioenergy projects, forestry research and forestry development and governance projects	12	Ph.D (Forestry)
<b>TIMO Erkki TOKOLA</b>	Professor, Forest Information Technology and Systems, University of Joensuu, Finland	Finnish	Asia, Africa	Indonesia, Nepal Namibia Zambia Tanzania	Forest Monitoring, Methodologies (Reference Scenarios)	Specializes in Forest Inventory & Remote sensing and GIS techniques. Several publications and impressive research record. Vice-Chairman of IUFRO group, Forest Information Systems, 1995-1997.	15	Ph.D (Forestry)
<b>James Tolisano</b>	Eco Development and Natural Resource Management Specialist, New York and Santa Fe, New Mexico	US	E. And S.Asia/Pacific (5+ years), Latin America/Caribbean (12+ years), Africa (3+ years)	Several countries globally	Organizational Development, Institutional Strengthening and Capacity Building; Carbon Emissions Reduction and Ecosystem Services Project Development	Offered professional services in applied conservation science for a variety of U.S. regional and international projects for more than 20 years. Specific services have been offered in the fields of environmental impact analysis; environment/natural resource planning; forest and watershed management and biodiversity conservation and international projects for more than 20 years.	20	M.Sc

<b>Martin Tadoum</b>	COMIFAC			Cameroon				
<b>Eveline Trines</b>	Private Consultant	Dutch	Latin America, Africa Asia	PNG, Tanzania Mozambique Uganda Indonesia Bolivia	Methodologies (Reference Scenarios), Forest Policy and strategies co-benefits	Forestry and Climate Change expert including REDD strategies and policy options and A/R CDM. Experience of working with government, private sector in Latin America, Africa, Asia, UNFCCC secretariat. Operationalising forest based CC mitigation projects in developing countries	18	Masters (environmental forestry)
<b>Andrea Tuttle</b>	Consultant, Andrea Tuttle & Associates, Forest and Climate Policy			China, Indonesia, Malaysia	National Registry, Carbon accounting protocols	Development of policy, accounting protocols and Registry procedures for forest carbon credits, pre- and post-AB 32. CCAR credits are Voluntary Carbon Standard (VCS), advisory to California Air Resources Board on Climate Change, • Consultant to GTZ and Indonesia Ministry of Forestry recommending components of a Forest Carbon Registry and REDD carbon accounting, linked to Forest Management Units for sustainable forest management	10	Ph.D (Environmental Planning)
<b>Gisela Ulloa Vargas</b>		Bolivian	Latin America	Bolivia	carbon sequestration, project development	Worked as National CDM Office Coordinator for Bolivia. Engaged in various capacities in CDM projects and particularly in forestry e.g. Forestry Action Plan for Bolivia. Technical Analysis of the Special Report on Land Use, Land Use Change and Forestry (LULUCF), development of CDM A/R projects in Bolivia. Has worked in the national CDM office as incharge of providing support in the design, technical development, marketing and negotiation for CDM projects in the energy and forest sector. Analysis of financing mechanisms for nature resource management projects. Also engaged in FCPF inception process.	10	MBA in International Business Management

<b>Eduardo Morales-Verdugo</b>	Independent consu	Chilean	Latin Amer	Paraguay, Chile Panama Argentina	Forest policy, Project formulation	Worked for FAO, WB, Banco. Expertise in forest certification, Project development for carbon sequestration. Engaged in climate change negotiations for Chile. Forestry expert for Chile	17	Masters (Resource planning and conservation)
<b>Jacobus J. Vermaat</b>	Specialist on EU FLEGT (Forest law Enforcement Governance and Trade) Action Plan and Voluntary Partnership Agreements for Ghana and the wider West/Central African Region. Based in Ghana	Netherlands	Africa	Cameroon, Congo Gabon Ghana	Rural livelihoods, social issues and consultations, Forest Governance	Expertise in Project identification, feasibility and evaluation studies. □ Design and implementation of participatory approaches to development projects, including governance and multi stakeholder involvement and consultations. □ Design and implementation of (participatory) monitoring and evaluation. FLEGT VPA specialist in Ghana. Experience in several African countries	20	Masters (Developmen t Sociology)
