Responsibility for M&E		R-PP Results	Indicator	Baseline	Target by 10/2015	Assumptions	Method / Source of Verification	Frequency of data collection	Traffic Lights	[Reporting	[Reporting	[Reporting	[Reporting
Reporting CCU	Level Intermediate Impact 1	Improved forest governance in support of Sustainable Forest Management	1.1.1 Degree to which decision making processes related to emission reductions and forest resource management allow for active multi-stakeholder participation (FCPF I1.5.A)	No emissions reductions decision- processes	Improved active multi-stakeholder participation; based on gender and social inclusion	GoG maintains commitment for REDD+	REDD+ stakeholder meeting minutes	Semi-annual		Period]	Period]	Period]	Period]
CCU, NREG Coordination, CPME			I.1.2 Number of policy reforms initiated, completed or underway complying to REDD+ standards (FCPF I1.5.B) (Review / Revision / Formulation / Execution, Cross sectoral policies, Policies Linkages with REDD+)	Policy reforms required to cover at least six key policy gaps	6 policy reform actions: 1. Plantation strategy, 2. Forest Development Master Plan, 3. National Climate Change Policy, 4. Forest and Wildlife policy, 5. Tree tenure policy under ENRAC technical assistance by World Bank, 6. Benefit sharing policy). Law enforcement and other aspects of forest governance handled under VPA. (NOTE: The land use policy is being developed by the Lands Commission but not an activity under the R-PP)	Continuing interest of international community in REDD+	FC and other government websites with policies posted; Consultation reports and draft documents	Semi-annual					
СРМЕ			I.1.3 FC employee satisfaction	TBD	To be updated by CPME for 2014-2017		Forestry Commission Human Resources	Annual					
FIP Secretariat in MLNR			I.1.4 Conservation of natural forests through integrated land use planning	TBD	TBD by FIP		FSD	Annual					
FIP Secretariat in MLNR			I.1.5 Evidence that laws and regulations are	TBD	TBD by FIP		FSD	Annual					
FIP Secretariat in MLNR			enforced in the HFZ I.1.5 Decline in illegal logging	TBD	TBD by FIP		FSD	Annual					
FIP Secretariat in MLNR			I.1.6 Evidence of implication of the private sector in sustainable forest management and plantation	TBD	TBD by FIP		FSD	Annual					
FIP Secretariat in MLNR			I.1.7 Evidence that the legal framework (laws, regulations, guidelines) and implementation practices provide inclusive land tenure rights and land use systems and protect the rights of local communities (women and men)		TBD by FIP		FSD	Annual					
FIP Secretariat in MLNR			I.1.8 Evidence that land use plans and management models exists for the HFZ, and progress is made to secure the tenure and territorial rights to land and resources of forest-dependent stakeholders, including local and forest dependent communities	TBD	TBD by FIP		FSD	Annual					
CPME / NREG Coordination			I.1.9 Number of Integrated Management Plans (IMPs) (a) Developed (b) Reviewed (c) Implemented.	Old management plans	20 FR and 30 GSBA plans developed, 10 additional plans developed; 30 plans reviewed, 50 plans implemented (To buydated by CPME for 2012-2017. NREG Results Framework target is 3)		FSD	Annual					
СРМЕ			I.1.10 Number of Non-Legally Binding Instrument (NLBI) workshops organized	4	3 (To be updated by CPME for 2014- 2017)		WD	Annual					

NREG Coordination			I.a.11 Guidelines on conduct of consultations with non-state actors engaged in the forestry sector through a participatory process by TCC	No guidelines	Guidelines developed and adopted by TCC	Consultation guidelines available on government website	Annual			
CCU, FIP Secretariat in MLNR	Intermediate Impact 2	Reduced emissions from deforestation, forest degradation and from sequestration through selected demonstration activities	I.2.1 Number of tons of CO2 from emissions reduced and sequestered from REDD+ activities in Ghana (FCPF I.2.B)	0	TBD from MRV/Carbon registry - Don't have info from pilot projects yet, as they have yet to do their project design document (expected mid-2ox1). Long-term target estimated for ERP: 182.8 mtCO2E by 2034 (from ER-PIN).	National carbon accounting registry.	Semi-annual			
ccu			I.2.2 Number of hectares of off-reserve forest included in REDD+ projects	0	-goo ha - TBD, Pilot projects haven't yet submitted their project design documents so can't give precise coverage until then.	REDD+/FIP pilot project design documents. Two are on-reserve, five in off-reserve areas. One is a globally significant BD area, and idea is to enhance protection of that area. Second one in reserve is a production reserve, intend to enhance the tree stocks through enrichment planting. All Off-reserve areas are doing carbon stock enhancement - will be planting trees to enhance cover. FIP support, and also government of Switzerland.	Semi-annual			
CCU			I.2.3 Number of hectares of on-reserve forest	0	XXXX ha, TBD	REDD+/FIP pilot project	Semi-annual			
CCU			included in REDD+ projects I.2.4 Number of hectares of plantation forest included in REDD+ projects	0	o (by 2015,long-term target TBD in future, following national plantation strategy)	documents REDD+/FIP pilot project documents	Semi-annual			
СРМЕ			I.2.5 Area of degraded forest reserve rehabilitated / restored	13,324 ha	500 ha/year (To be updated by CPME for 2014-2017)	FSD	Annual			
CPME, FIP Secretariat in MLNR			I.2.6 Area of Plantation (a) On-reserve (b) Off- reserve established	13,651 ha	10,000 ha/year (To be updated by CPME for 2014-2017)	FSD	Annual			
СРМЕ			I.2.7 Volume of Plantation (a) On-reserve (b) Off-reserve harvested	On: 13426 m3 Off: 42330 m3	N/A (To be updated by CPME for 2014- 2017)	FSD	Annual			
СРМЕ			I.2.8 Area of existing plantation tended	53,196 ha	N/A (To be updated by CPME for 2014- 2017)	FSD	Annual			
СРМЕ			I.2.9 Area of Coppiced Plantation tended	1,451 ha	2,000 ha added/year (To be updated by CPME for 2014-2017)	FSD	Annual			
FIP Secretariat in MLNR			I.2.10 Change in deforestation rate in HFZ	TBD	TBD according to FIP	FSD	Annual			
FIP Secretariat in MLNR			I.2.11 Change in forest degradation rate in HFZ	TBD	TBD according to FIP	FSD	Annual			
СРМЕ			I.2.12 Number of wildfire incidences recorded	N/A	30 (To be updated by CPME for 2014- 2017)	RMSC	Annual			
СРМЕ			I.2.13 Forest Condition score improved	3-4	3 (To be updated by CPME for 2014- 2017)	RMSC	5 years			
СРМЕ			I.2.14 Cost of environmental degradation as a ratio of GDP (lands and forest) assessed	10%	10% (To be updated by CPME for 2014- 2017)	FC/EPA	5 years			
CCU	Intermediate Impact 3	Ghana enters into an international REDD+ funding modality	I.3.1 R-Package submitted to the FCPF for endorsement (FCPF I1.A)	No R-Package	R-Package submitted by 11/2015	ccu	Semi-annual			
CCU	пирасс 3	INCODE IONIGING MODULITY		No ERPA	ERPA signed by 3/2016	сси	Semi-annual			
ССИ			I.3.3 Amount of non-FCPF investments received for implementation of ER Programs (e.g. FIP, bilateral donors, private sector) (FCPF I.4.A)	0	\$28.4 million USD by 2015; \$34.45 million USD for 2016 and 2017 (as per ER-PIN Annex 1)	CCU	Semi-annual			
FIP Secretariat in MLNR			I3.4 New investments in climate-smart cocoa and agriculture	N/A	TBD by FIP	FIP Secretariat	Annual			
		1	and agriculture	l			l .	 	L	

		I3.5 Leverage factor of FIP funding; \$	0	At least 1:1 leveraging		FIP Secretariat	Annual					
		I3.6 Scale up investments by private sector	TBD	TBD by FIP		FIP Secretariat	Annual					
Intermediate Impact 4	Equitable benefit sharing of REDD+ actually takes place	I.4.1% of national carbon funds going to carbon right owners of different forest regimes conform to agreed shares (FCPC 2.C)	N/A	TBD after set up of MRV/benefit sharing scheme (expected mid-2014)		Records and notes of stakeholder meetings on proposed benefit sharing scheme	Semi-annual					
		I.42 Implemented REDD+ activities conform with nationally defined benefit sharing standards	N/A	Pilot activities produce benefit sharing in alignment with nationally defined benefit sharing standards		Benefit sharing will be in place for pilot projects when they start- up.	Semi-annual					
		I.4.3 Number of (a) Commercial (b) MTS Benefit Sharing Agreements signed	N/A	100 (30 commercial; 70 MTS) (To be updated by CPME for 2014-2017)		FSD	Annual					
		I.4.4 Revenue forecasting model for forestry sector	No model	Model in-place and operational in Ministry of Finance, feeding into an overall model of revenue forecasting for NRM sector		Direct observation of Annual Budget Statement	Annual					
Intermediate Impact 5	Threats to forest biodiversity reduced	I.5.1 Number of Community Resource Management Areas (CREMAs) inaugurated	9	21 (To be updated by CPME for 2014- 2017)		WD	Annual					
		I.5.2 Total number of protected areas staff recorded	2349	Increase of 25% (To be updated by CPME for 2014-2017)		Forestry Commission Human Resources	Annual					
		I.5.3 Strategies for bush meat consumption monitoring developed and implemented	No strategies	Bushmeat consumption monitoring strategies implemented (To be updated by CPME for 2014-2017)		WD	Annual					
		I.5.4 Protected Areas Management Effectiveness Tracking Tool (METT) disaggregated scores and system-wide average score for national-level protected areas, including forest reserves	TBD			FSD / WD / WB / MESTI scoring	Annual					
		I.5.5 Number of visitors to parks recorded	241,124	Increased of 25% (To be updated by CPME for 2014-2017)		WD	Annual

сси	Output 2.a.1	Research studies on land use, forest policy, and governance to further understand causes and drivers	2.a.1. Number of research gaps addressed of the 13 applied research gaps and priorities identified in R-PP	No studies or research	At least 50% of REDD+ related info gaps addressed through synthesis work of expert sub-working groups or other independent organizations by 12/2014		REDD+ Secretariat files	Semi-annual			
	R-PP Sub-com	ponent 2.b.: REDD+ Strategy Option	S								
ccu	Outcome 2.b	Comprehensive and coherent REDD+ implementation strategy formally validated nationally	O 2.b. Approved National REDD+ strategy report available	No strategy	Report published by 6/2015		Existence of nationally approved REDD+ strategy				
CCU	Output 2.b.1	Studies to support national expert consultations	2.b.1.i Research inputs to the two expert consultations and four working groups on identified key issues	No inputs	At least one input provided to each expert consultation and working group process		сси	Semi-annual			
CCU			2.b.1.ii ER-PIN submitted (FCPF 2.2.a)	No ER-PIN	Submitted by 3/2014		FCPF website	Semi-annual	ļ		
сси	Output 2.b.2	Information dissemination through media and internet	2.b. 2.i Number of relevant print media channels publishing proposed REDD+ strategy	REDD+ strategy not published	Prior to validation and adoption, proposed REDD+ strategy is distributed in hard copy to all the regional and district offices, posted on FC and FCPF website, press release issued, and national newspaper reports on development of strategy		Copies of media products, monthly website traffic statistics to webpage with published strategy	Semi-annual			
ccu			2.b.2.ii Number of relevant stakeholder organizations that have received a printed copy of proposed REDD+ strategy	No organizations	At least 4 weeks prior to validation and adoption, proposed strategy is printed and disseminated to all key stakeholder organizations		REDD+ Secretariat files, printed documentation of strategy, dissemination list for strategy	Semi-annual			
CCU/CPME	Output 2.b.3	Demonstration and pilot activities	2.b.3.i Status and number of pilot activities	No pilot activities	Pilot activities initiated to test governance reforms, technical systems, and ensure good practice, while assessing impacts related to key issues (coca, chainsawing, logging, biodiversity, benefit sharing)		ccu	Semi-annual			
CCU/CPME			2.b.3.ii Number of REDD+ projects scaled-up	None	Scaling up of 5 REDD+ projects initiated		CCU	Semi-annual			

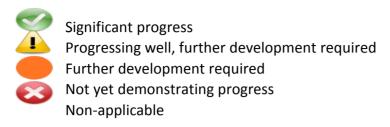

ccu	Output 2.b.4	Final REDD+ Strategy selected	2.b.4 Level of incorporation of stakeholder inputs	None	Final agreed REDD+ strategy reflects all key stakeholder inputs, and is	REDD+ Strategy development drafts, records of stakeholder	Semi-annual		
					nationally validated and adopted by 6/2015	inputs			
	R-PP Sub-com	ponent 2.c.: Arrangements for REDD	+ Implementation						
ccu	Outcome 2.c	validated	O2.c Additional institutional structures for REDD+ implementation identified, designed and validated	N/A	According to architecture for institutional arrangement and structures by 12/2014	сси	Semi-annual		
CCU / NREG Coordination	Output 2.c.1	Information clearinghouse function addressed through FC sub-website for REDD+	2.c.1 Existence of online public information clearinghouse website (FC sub-website for REDD+)	Does not exist	R-PP public information online clearinghouse website in existence, and information submitted to national Climate Change Support and Impact Monitoring Disclosure System (CCSI-MDS) project database managed by MESTI/EPA	Existence of R-PP public information website; Information available in CCSI-MDI	Semi-annual		
CCU			2.C.1.ii Availability of public information on REDD+ readiness process	Information scattered	All key public documents posted to FC sub-website for REDD+ by 5/2014	Availability of all key public documents on website	Semi-annual		
CCU / NREG Coordination	Output 2.c.2	Information sharing protocol on financial aspects, and best practice options for benefit sharing	2.c. 2.1 Existence of agreed carbon revenue disbursement procedures document based on national, regional, and international best practices for benefit sharing flows	No agreed financial flows procedures	Benefit sharing formula options document approved by all key stakeholders, including Ministry of Finance	Records of approval from all key stakeholders by meeting records or written endorsements; Consultation reports and draft document	Semi-annual		
ccu	Output 2.c.3	REDD+/FIP pilot projects with lessons produced	2.c.3.i Existence of selection committee for pilot projects	No selection mechanism	Selection mechanism in place	Pilot project selection process records	Semi-annual		
СС			z.c.3.ii Level of pilot project lesson documentation and dissemination	No lessons	"Key lessons" captured for each REDD+/FIP pilot project by mid-point of implementation of projects through regular monitoring reports	Availability of lessons documents	Semi-annual		
FIP Secretariat in MLNR			z.c.3.iii Number and type of knowledge assets created and shared feeding into replication efforts	No knowledge assets	REDD+/FIP pilot project results and experiences summarized in 2 pg briefs and publicly available within 3 months of pilot project completion	Summary briefs for all pilot projects available publicly online on R-PP public information website	Annual		
сси	Output 2.c.4	Institutional arrangements mapping, and institutional capacity strengthening activities	2.c. 4 Existence of institutional map based on REDD+ management requirements with roles and responsibilities defined for REDD+ strategies, actions, and policy program measures	Institutional roles and responsibilities for REDD+ management not defined	Institutional mapping completed, with clearly defined roles and responsibilities for REDD+ management	REDD+ Secretariat files	Semi-annual		
сси	Output 2.c.5	Carbon accounting registry management arrangements defined	2.c.5.i Existence of carbon accounting registry procedures and management arrangements that meets international requirements	No carbon accounting registry	Documentation of clearly defined carbon accounting registry procedures and management arrangements, agreed by all key stakeholders, including Ministry of Finance	REDD+ Secretariat files, REDD+ stakeholder consultation meeting documents and records	Semi-annual		
сси			2.c.g.ii Adequacy of carbon accounting registry functioning	No carbon accounting registry	Carbon accounting registry functioning sufficiently to meet REDD+ implementation national and international needs and requirements	Stakeholder satisfaction with functionality of carbon registry, international REDD+ carbon accounting requirements are met	Semi-annual		
ccu	Output 2.c.6	Conflict resolution institutional arrangements defined	2.c.1.vi Degree of operationality of Grievance Mechanism in terms of: - Number of people aware of it - % of targeted population able to access it - % of cases resolved through the mechanism	No grievance mechanism	High degree of operationality: - Population of all communities with REDD+ projects - 100% have access - 100% of cases resolved	Grievance mechanism records and files, with conflict resolution protocol and process, using an ombudsperson	Semi-annual		
		ponent 2.d.: Social and Environment							
CCU	Outcome 2.d	Measures to mitigate and avoid negative social and environmental impacts are implemented	O <sub>5.1</sub> Degree of implementation of measures foreseen in SESA	N/A	All necessary measures by 12/2014	CCU	Semi-annual		
сси	Output 2.d.1	Initial SESA diagnostic analysis (desk-based)	2.d.1 Status of desk-based diagnostic analysis	Limited and scattered information on potential SESA issues	Completed desk-based diagnostic analysis	REDD+ Secretariat files, with documentation of validation by stakeholders	Semi-annual		

CCU	Output 2.d.2	Consultative stakeholder SESA analysis	2.d.2.i Number of stakeholders (by category, gender and age) consulted and trained during SESA process (FCPF 3.1.b)	No consultative SESA analysis	TBD. X participants at Y national, Z regional, W local level consultations, X learning groups with at least X men/Y women/Z youth from CSO and IP	Records of consultations	Semi-annual			
сси			2.d.2.ii Status of SESA stakeholder consultations	No SESA consultations	At least 1 SESA stakeholder consultations held in each region	REDD+ Secretariat files, with records of consultations involving all key stakeholders	Semi-annual			
CCU	Output 2.d.3	Analysis of World Bank social and environmental standards	d. 3. i Level of compatibility of planned REDD+ activities with World Bank safeguard policies	Compatibility unknown	100% compatibility expected for all REDD+ activities	CCU, FCPF FMT	Semi-annual			
ccu			2.d.3.ii Examples of indicators for enhancement of livelihoods of local communities and for biodiversity conservation included in ESMF and REDD+ strategy (FCPF 3.B.)	No relevant results produced as yet	REDD+ strategy, monitoring and ER- Programs incorporate indicators related to biodiversity conservation and livelihood of local communities in addition to other co-benefits and safeguards	REDD+ strategy and ER-PIN results frameworks	Semi-annual			
сси	Output 2.d.4	National SESA working group meetings	2.d.4 Number and participation in national SESA working group meetings	No SESA working group	Working group meets sufficient number of times with quorum to produce recommendations for REDD+ strategies to ensure compliance with SESA safequards	SESA working group meeting minutes	Semi-annual			
CCU	Output 2.d.5	Ongoing SESA monitoring	2.d.5 Availability of reporting on SESA	No reporting	Annual report to ENRAC on SESA compliance available	REDD+ Secretariat annual report on SESA compliance	Semi-annual			
	P-PP Compos	ent 3: Develop a Reference Scenario	compliance		compilatice available	OII SESA COINDIIANCE				
ccu	Outcome 3	Sound reference level established	O <sub>3.1</sub> A reference level for emissions and removals is available	No reference level for emissions and removals	Available by 12/2014	R-PP Assessment	Semi-annual			
CCU	Output 3.1	Capacity in place for emissions quantification and scenario development	3.1.i Data availability (Landsat TM and ETM+ imagery for 2000-200g) for quantification of emissions	FC does not have data	Data available for emissions quantifications by 6/2014 (completed)	Nationally produced emissions quantification for 2000-2009 available for R-PP Assessment	Semi-annual			
сси			3.1.ii Technology (GIS and image process hardware and software) available for quantification of emissions	FC does not have technology	Technology in-place for emissions quantification by 6/2014 (completed)	Nationally produced emissions quantification for 2000-2009 available for R-PP Assessment	Semi-annual			
сси			3.1.iii Capacity of FC and FORIG staff to analyze historic emissions	FC and FORIG staff not sufficiently trained for emissions analysis	FC and FORIG staff can calculate historic emissions, using sufficient data and available technology by 6/2014	Nationally produced emissions quantification for 2000-2009 available for R-PP Assessment	Semi-annual			
CCU	Output 3.2	Historic emissions quantified for 2000-2009 at national level	3.2 Availability of historic emissions quantification for 1990-2000-2010	No quantification of emissions	Historic national emissions quantification for 1990-2000-2010 available by 10/2014	R-PP Assessment process	Semi-annual			
CCU	Output 3.3	Future emissions trajectories developed	3.3 Availability of emissions trajectories	No emissions trajectories	Emissions trajectories available and validated by 10/2014	R-PP Assessment process	Semi-annual			
		ent 4: Design a Monitoring System								
CCU	Outcome 4	National forest monitoring system that allows sound MRV is operational	O4.1 MRV System complies to international standards	No MRV system	Full system in compliance to IPCC Guidelines and Standards by 10/2015	R-PP Assessment process	Semi-annual			
CCU			O4.2 Soundness of data verified	No MRV data	Data verified and adjusted as required	MRV database	Semi-annual			
ccu	Output 4.1	MRV system designed	4.1 Existence and status of MRV protocols	No MRV system	MRV protocols produced, agreed and validated by relevant stakeholders by 10/2014	R-PP Assessment process	Semi-annual			
CCU	Output 4.2	Training on information management for National REDD+ Registry (including biodiversity indicators)	4.2 Number of persons trained in Forest Carbon monitoring by gender	No persons trained	National level – 5 people (m/f) trained per year to facilitate carbon and non- carbon monitoring for all REDD+/FIP pilot sites	сси	Semi-annual			
CPME	Output 4.3	MRV system piloting	4.3.i Use of MRV system for REDD+/ FIP pilot projects (MRV implemented/Total carbon stock recorded)	MRV system not applied or tested	MRV system used for all REDD+/FIP pilot projects starting 6/2014	сси	Annual			
СРМЕ			4.3.ii Total forest cover (on/off reserve) monitored	4.9m ha	60,000 ha added	FSD	Annual			
CCU	Output 4.4	Verification auditing	4.4.i Verification audit completions	No MRV verification audits	Verification audits conducted for all REDD+/FIP pilot projects by 12/2015	REDD+ Secretariat	Semi-annual			
СРМЕ			4.4.ii LULUCF closely monitored	Reliance on FAO's Forest Resources Assessment (FRA)	Core team trained on GIS	RMSC	Annual

Commont		D	A Cultural
Component Sub-Component 1a -		Purpose Purpose: setting-up national readiness management arrangements to manage	Assessment Criteria Assessment Criteria: (i) accountability and transparency; (ii) operating mandate
National REDD+ Management		and coordinate the REDD-plus readiness activities whilst mainstreaming REDD- plus into broader strategies	and budget; (iii) multi-sector coordination mechanisms and cross-sector collaboration; (iv) technical supervision capacity; (v) funds management
Arrangements			capacity; (vi) feedback and grievance redress mechanism
Outcome 1.a Output 1.a.1	Governance for REDD+ readiness fully deployed  Strengthened REDD+ Secretariat		
Output 1.a.2	Strengthened REDD+ NRWG, and NREG Technical Coordination		
	Committee+ (TCC+)		
Output 1.a.3 Output 1.a.4	Strengthened National Forest Forum Environment and Natural Resources Advisory Council established		
R-PP Sub-component 1.b.:	Environment and Natural Resources Advisory Council established	Purpose: broad consultation with and participation of key stakeholders for	Assessment Criteria: (i) participation and engagement of key stakeholders; (ii)
Stakeholder consultation and participation		future REDD+ programs, to ensure participation of different social groups, transparency and accountability of decision-making	consultation processes; (iii) information sharing and accessibility of information; (iv) implementation and public disclosure of consultation outcomes
Outcome 1.b	Stakeholders from local to national level capable and willing to engage on REDD+ implementation		
Output 1.b.1 Output 1.b.2	Consultation and participation working groups established REDD+ information sharing activities: trainings, briefing materials,		
Output 1.0.2	stakeholder led information sharing		
	Expert consultations, workshops, and focus groups		
Output 1.b.4 Output 1.b.5	Stakeholder consultations on key pilot projects and legal / institutional changes  Validation consultation for national REDD+ strategy		
R-PP Sub-component 2.a.: Assessment of Land Use, Forest Policy, and Governance	valuation consorted on to instrument accounts as accept	Purpose: Identification of key drivers of deforestation and/or forest degradation, as well as activities concerning conservation, sustainable management of forests, and enhancement of forest carbon stocks	Assessment Criteria: (i) assessment and analysis; (ii) prioritization of direct and indirect drivers/barriers to forest enhancement; (iii) links between drivers/barriers and REDP+ activities; (iv) actions plans to address natural resource right, land tenure, governance; (v) implications for forest law and policy
Outcome 2.a	Improved knowledge and understanding of key drivers for deforestation and forest degradation		policy
Output 2.a.1	and forest degradation Research studies on land use, forest policy, and governance to further understand causes and drivers		
R-PP Sub-component 2.b.: REDD+ Strategy Options	understand causes and drivers	Purpose: Develop a set of policies and programs for addressing the drivers of deforestation and/or forest degradation	Assessment Criteria: (i) selection and prioritization of REDD+ strategy options; (ii) feasibility assessment; (iii) implications for strategy options on existing sectoral policies
Outcome 2.b	Comprehensive and coherent REDD+ implementation strategy formally validated nationally		
Output 2.b.1	Studies to support national expert consultations		
Output 2.b.2	Information dissemination through media and internet		
Output 2.b.3 Output 2.b.4	Demonstration and pilot activities Final REDD+ Strategy selected		
R-PP Sub-component 2.c.: Arrangements for REDD+ Implementation		Purpose: Set out credible and transparent institutional, economic, legal and governance arrangements necessary to implement REDD+ strategy options	Assessment Criteria: (i) adoption and implementation of legislation/regulations; (ii) guidelines for implementation; (iii) benefit sharing mechanism; (iv) national REDD+ registry and system monitoring REDD+ activities
Outcome 2.c	Governance framework for REDD+ implementation fully developed and validated		
Output 2.c.1	Information clearinghouse function addressed through FC sub-website for REDD+		
Output 2.c.2	Information sharing protocol on financial aspects, and best practice options for benefit sharing		
Output 2.c.3 Output 2.c.4	REDD+/FIP pilot projects with lessons produced Institutional arrangements mapping, and institutional capacity strengthening activities		
Output 2.c.5 Output 2.c.6	Carbon accounting registry management arrangements defined  Conflict resolution institutional arrangements defined		
R-PP Sub-component 2.d.: Social and Environmental Impacts	Commet (200 doi institution) durangemento de inica	Purpose: Ensure compliance with the Common Approach and prepare a country specific Environmental and Social Management Framework (ESMF)	Assessment Criteria: (i)) analysis of social and environmental safeguard issues; (ii) REDD+ strategy design with respect to impacts; (iii) Environmental and Social Management Framework
Outcome 2.d	Measures to mitigate and avoid negative social and environmental impacts are implemented		-
Output 2.d.1	Initial SESA diagnostic analysis (desk-based)		
Output 2.d.2 Output 2.d.3	Consultative stakeholder SESA analysis  Analysis of World Bank social and environmental standards		
Output 2.d.4	National SESA working group meetings		
Output 2.d.5 R-PP Component 3: Develop a Reference	Ongoing SESA monitoring	Purpose: Development of the general approach to establish a REL/RL	Assessment Criteria: (i) demonstration of methodology; (ii) use of historical data, and adjusted for national circumstances; (iii) technical feasibility of the
Scenario			methodological approach, and consistency with UNFCCC/IPCC guidance and guidelines
Outcome 3 Output 3.1	Sound reference level established  Capacity in place for emissions quantification and scenario development		
Output 3.1	capacity in place for emissions quantification and scenario development		
	Historic emissions quantified for 2000-2009 at national level		
Output 3:3 R-PP Component 4: Design a Monitoring System	Future emissions trajectories developed	Purpose: Design and develop an operational forest monitoring system, including non-carbon aspects, and describe the approach to enhance the system over time	Assessment Criteria: (i) documentation of monitoring approach; (ii) demonstration of early implementation; (iii) institutional arrangements and capacities- Forests Assessment Criteria: (i) identification of relevant non-carbon aspects, and social and environmental issues; (ii) monitoring, reporting and information sharing;
Outcome 4	National forest monitoring system that allows sound MRV is operational		(iii) Institutional arrangements and capacities – Safeguards
Output 4.1	MRV system designed		
Output 4.2	Training on information management for National REDD+ Registry (including biodiversity indicators)		
Output 4.3 Output 4.4	MRV system piloting Verification auditing		
R-PP Component 5: Schedule and Budget			
Component 5	R-PP process completed on time with available resources		
R-PP Component 6: Design a Monitoring & Evaluation Program			
Component 6	M&E Framework developed		
	2500 0 1 4		
R-PP Completion	REDD+ Readiness Assessment		

## **Government Stakeholders**

Office of President / Office of Vice President

- Ministry of Land & Natural Resources
- Ministry of Foreign Affairs
- Ministry of Finance & Economic Planning
- Ministry of Food & Agriculture
- Ministry of Environment, Science & Technology
- Ministry of Local Government & Rural Development
- Ministry of Education
- · Ministry of Energy
- Forest Commission
- Lands Commission
- Mineral Commission
- Water Resources Commission
- Energy Commission
- Internal Revenue Service
- National Development Planning Commission
- Environmental Protection Agency
- Savannah Accelerated Development Authority
- Ghana National Fire Service
- Customs Excise & Preventive Services
- Immigration Service
- The Judiciary
- Office of the Administrator of Stool Lands
- Ghana Investment Promotion Centre
- Cocoa Board

## **Private Sector**

AGI Assoc of Ghana industries

- Wood Industry- GTMO, DOLTA, GTA, GATEX, FOWAG, Small scale carpenters
- Mining Industry Chamber of Mines, galamsey
- Fuel wood & charcoal Burners Associations (producers, transporters, consumers)
- NTFP gatherers (Hunters, Fishers, Fuel wood collectors)
- Farmers Large & small scale
- Services Investors/Buyers, technical experts consultants

## **Civil Society**

- CBOs (e.g. Fire volunteers, economic groups)
- Community Resource Management Committees, Forest Forums
- National & International NGOs
- Traditional Authorities Chiefs, etc.

- Professional Associations Ghana Institute of Foresters
- Trade Unions, Associations, FOSSA, Students' Unions
- Research & Academic organisations
- Religious bodies

Development Partners –bilateral and multilateral

## **FC Policy Objectives for NDPC**

- Objective 1. Ensure the restoration of degraded natural resources
- Objective 2. Build institutional frameworks for sustainable extractive and natural resources management
- Objective 3. Reduce the loss of biodiversity
- Objective 4. Maintain and enhance the protected area system
- Objective 5. Strengthen the legal framework on protected areas
- Objective 6. Reverse Forest and land degradation
- Objective 7. Sustainable use of wetlands
- Objective 8. Enhance community participation in envoronmental and natural resources management by awareness raising
- Objective 9. Enhance community participation in governance and decision-making
- Objective 10. Strengthen and develop local level capacity to participate in the management and governance of natural resources
- Objective 11. Adapt to the impacts and reduce vulnerability to Climate Variability and Change
- Objective 12. Mitigate the impacts of Climate Variability and Change

Key Result 1: Reduced Pressure on Forest Ecosystems

Key Result 2: Sustainable Management of Forests

Key Result 3: An institutional and legal/ regulatory framework that supports sustainable management of forests and protects the rights of local communities

Key Result 4: New and additional resources for climate- and forest-friendly projects

Key Result 5: Integration of learning by development actors active in REDD+

- 1. Forest Condition
- 2. Domestic Market Development
- 3. Rights of access and forest tenure
- 4. Production of legal timber/illegal logging
- 5. Timber trade and markets
- 6. Accountability and transparency
- 7. Institutional effectiveness and efficiency
- 8. Law enforcement and compliance
- 9. Livelihoods and poverty
- 10. Stakeholder involvement in forest management and forest policy reform

 $The \textit{Project Development Objective is to improve the institutional capacity of key \textit{ministries}, \textit{departments and agencies (MDAs) in natural resource and environmental management.}$ 

PDO Indicators (NREG Project Appraisal Document p.8)	FC Notes
<ul> <li>(a) Revenue forecasting model for the NRM sector in place and operational at the Ministry of Finance.</li> <li>(b) Forestry Development Master Plan revised and validated, and related training on its implementation provided.</li> <li>(c) Number of District Mining Committees established, trained, and equipped.</li> <li>(d) Nationally Appropriate Mitigation Action Plan fully finalized (costed and time bound).</li> </ul>	FC for forestry sector revenue forecasting FC N/A N/A
NREG Results Framework Indicators (NREG Project Appraisal Document Annex 1, p.17) PDO Indicators PDO Level Indicator 1:	
Natural Resources Revenue forecasting done by in Annual Budget statement	FC for forestry sector revenue forecasting
PDO Level Indicator 2: District Mining Committees supported by project licensing small artisanal gold mines (number) PDO Level Indicator 3:	N/A
Climate Change Support and Impact Monitoring Disclosure System (CCSD-MDS) project database on mitigation and adaptation publicly accessible  PDO Level Indicator 4:	FC CCU as relevant
Management Effectiveness Tracking Tool (METT) Score (disaggregated by Forest Reserves)	FC for forest reserves and PAs
Intermediate Results All Sectors: Capturing NRE in Economic Management & Program Coordination	
Intermediate Results Indicator All Sectors: Guidelines on conduct of consultations with non state actors engaged in the NRE sectors through a participatory process by TCC	FC for consultations in forestry sector
Intermediate Results: Forestry Intermediate Results Forestry 1:	
Review of schemes on tree tenure and benefit sharing drafted in a participatory process Intermediate Results Forestry 2:	FC
Forestry management plans approved for selected Forest Reserves by FC and MLNR Intermediate Results Forestry 3:	FC
Plantation strategy drafted by FC and submitted for consultation with state and non-state stakeholders	FC
Intermediate Results: Mining Mining companies that have submitted local procurement plans according to the new regultations, and verified by MC	N/A
Intermediate Results: Environmental Management and Climate Change National Appropriate Mitigation Action Plan (NAMA) prepared for one priority sector.	N/A

NOTE: Implementation Completion Report for NREG DPOs 1-3, dated December 28, 2011, includes many more outcome and impact level indicators relevant for the NREG program (see Annex 7, p.42 of the ICR), but these were not included in the current NREG Project Appraisal Document Results Framework, and thus have not been included in this document.
