

## Forest Carbon Partnership Facility

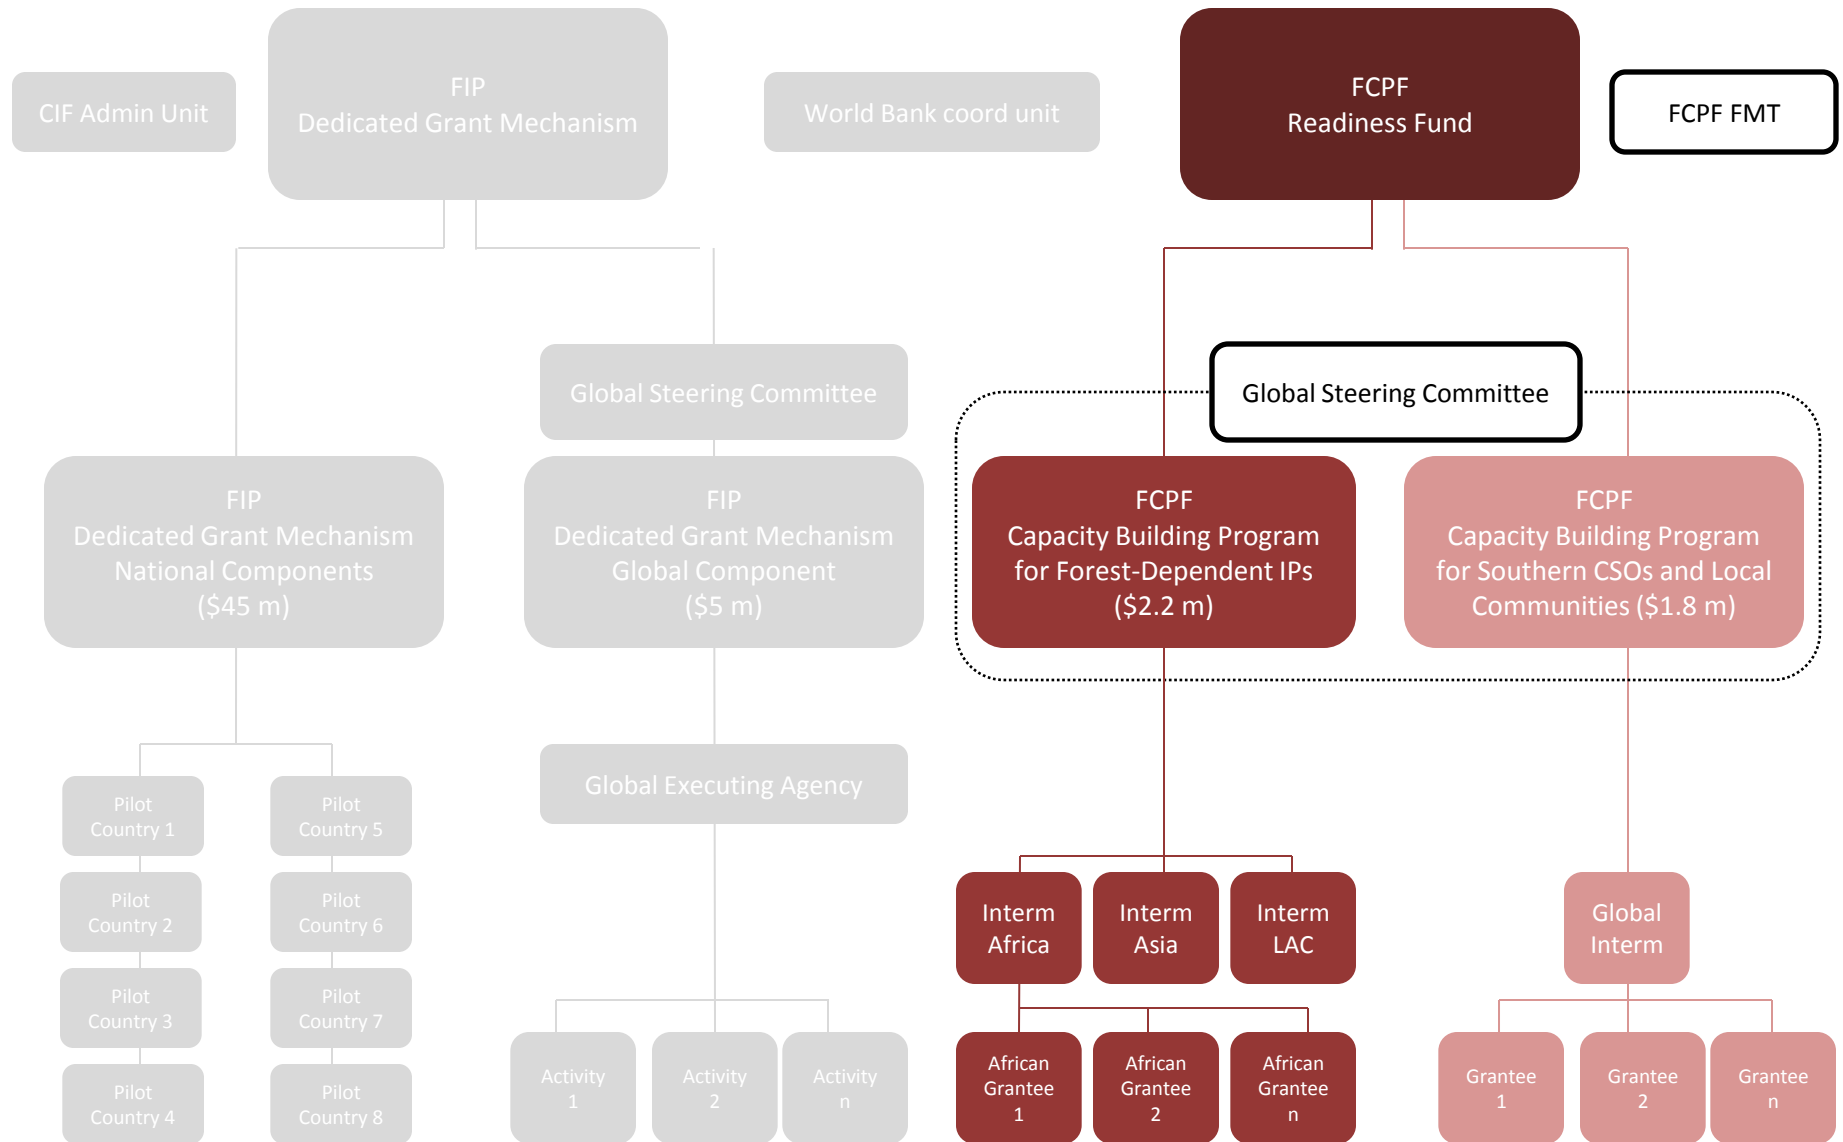

# Proposed Alignment between the FIP and FCPF regarding Work for Indigenous Peoples and Local Communities

Thirteenth Meeting of the Participants Committee (PC13)

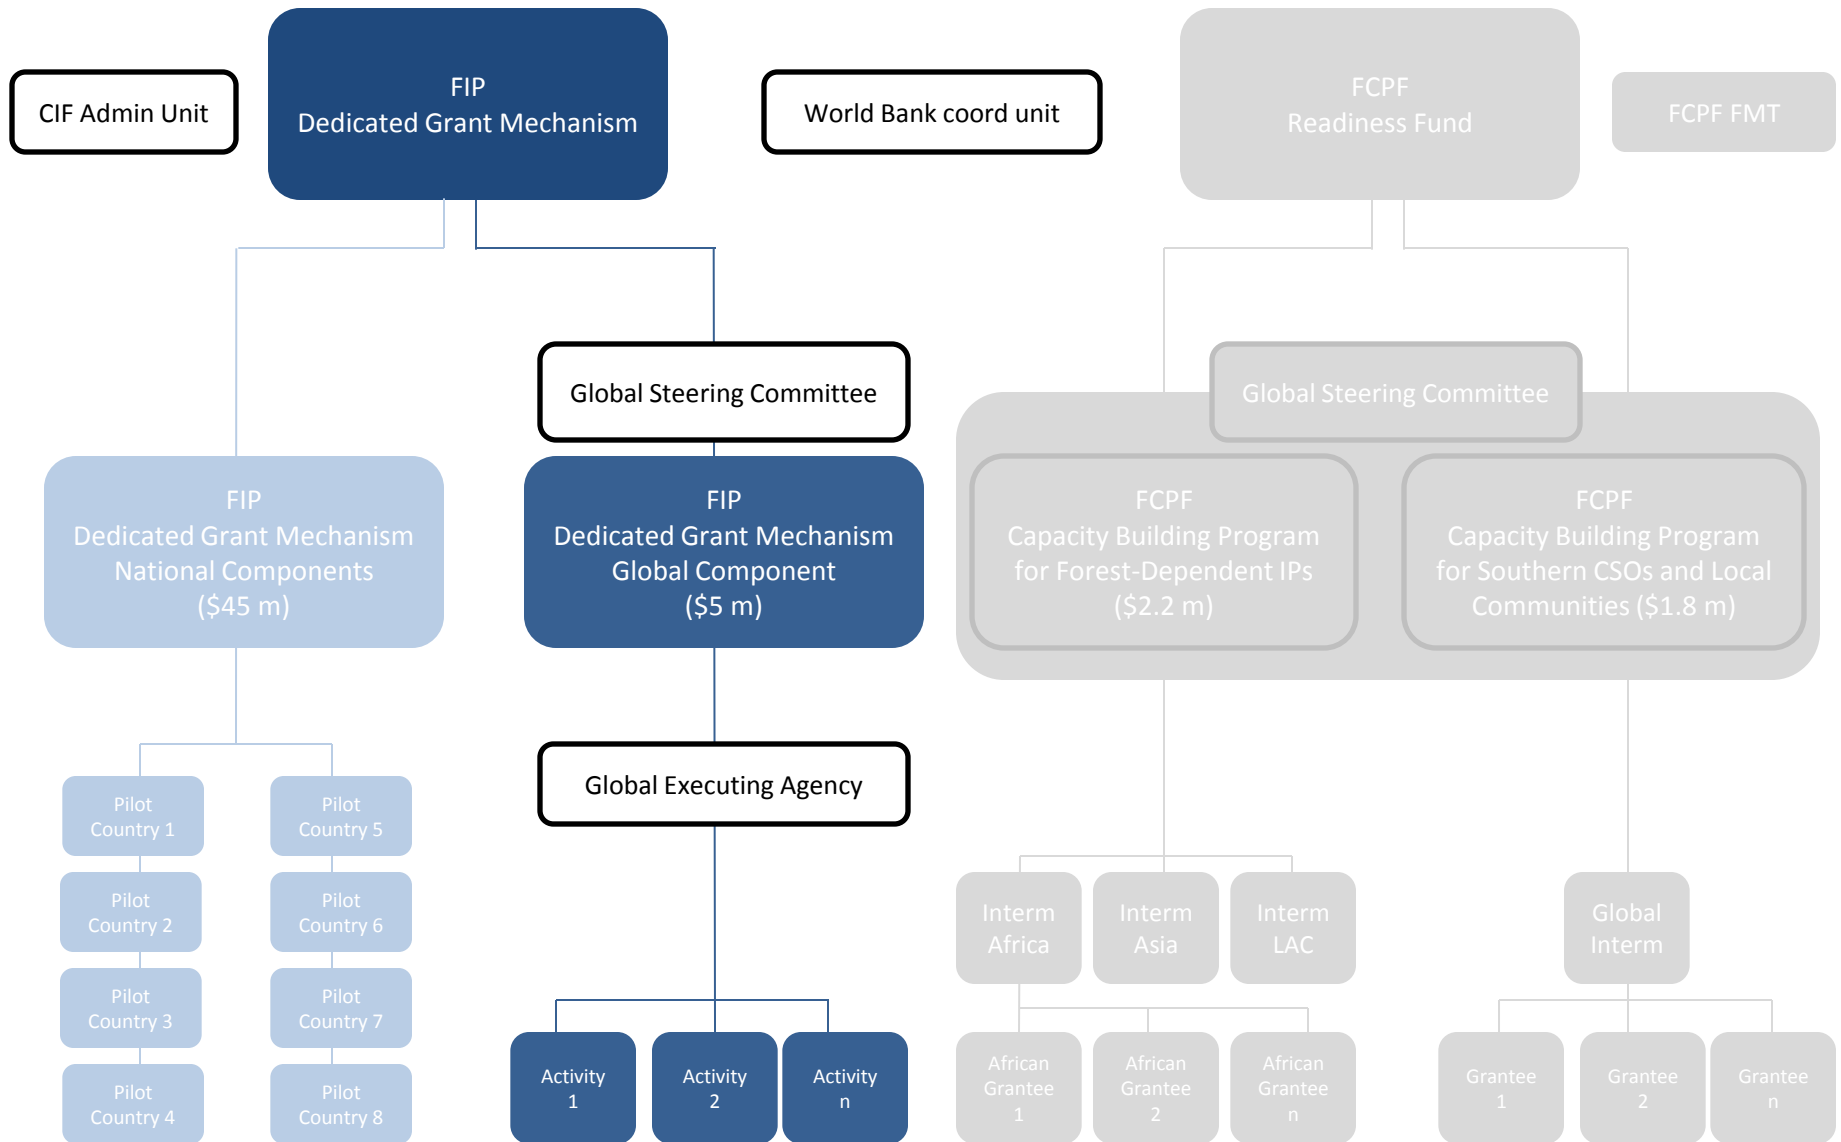

Brazzaville, Republic of Congo

October 21-22, 2012

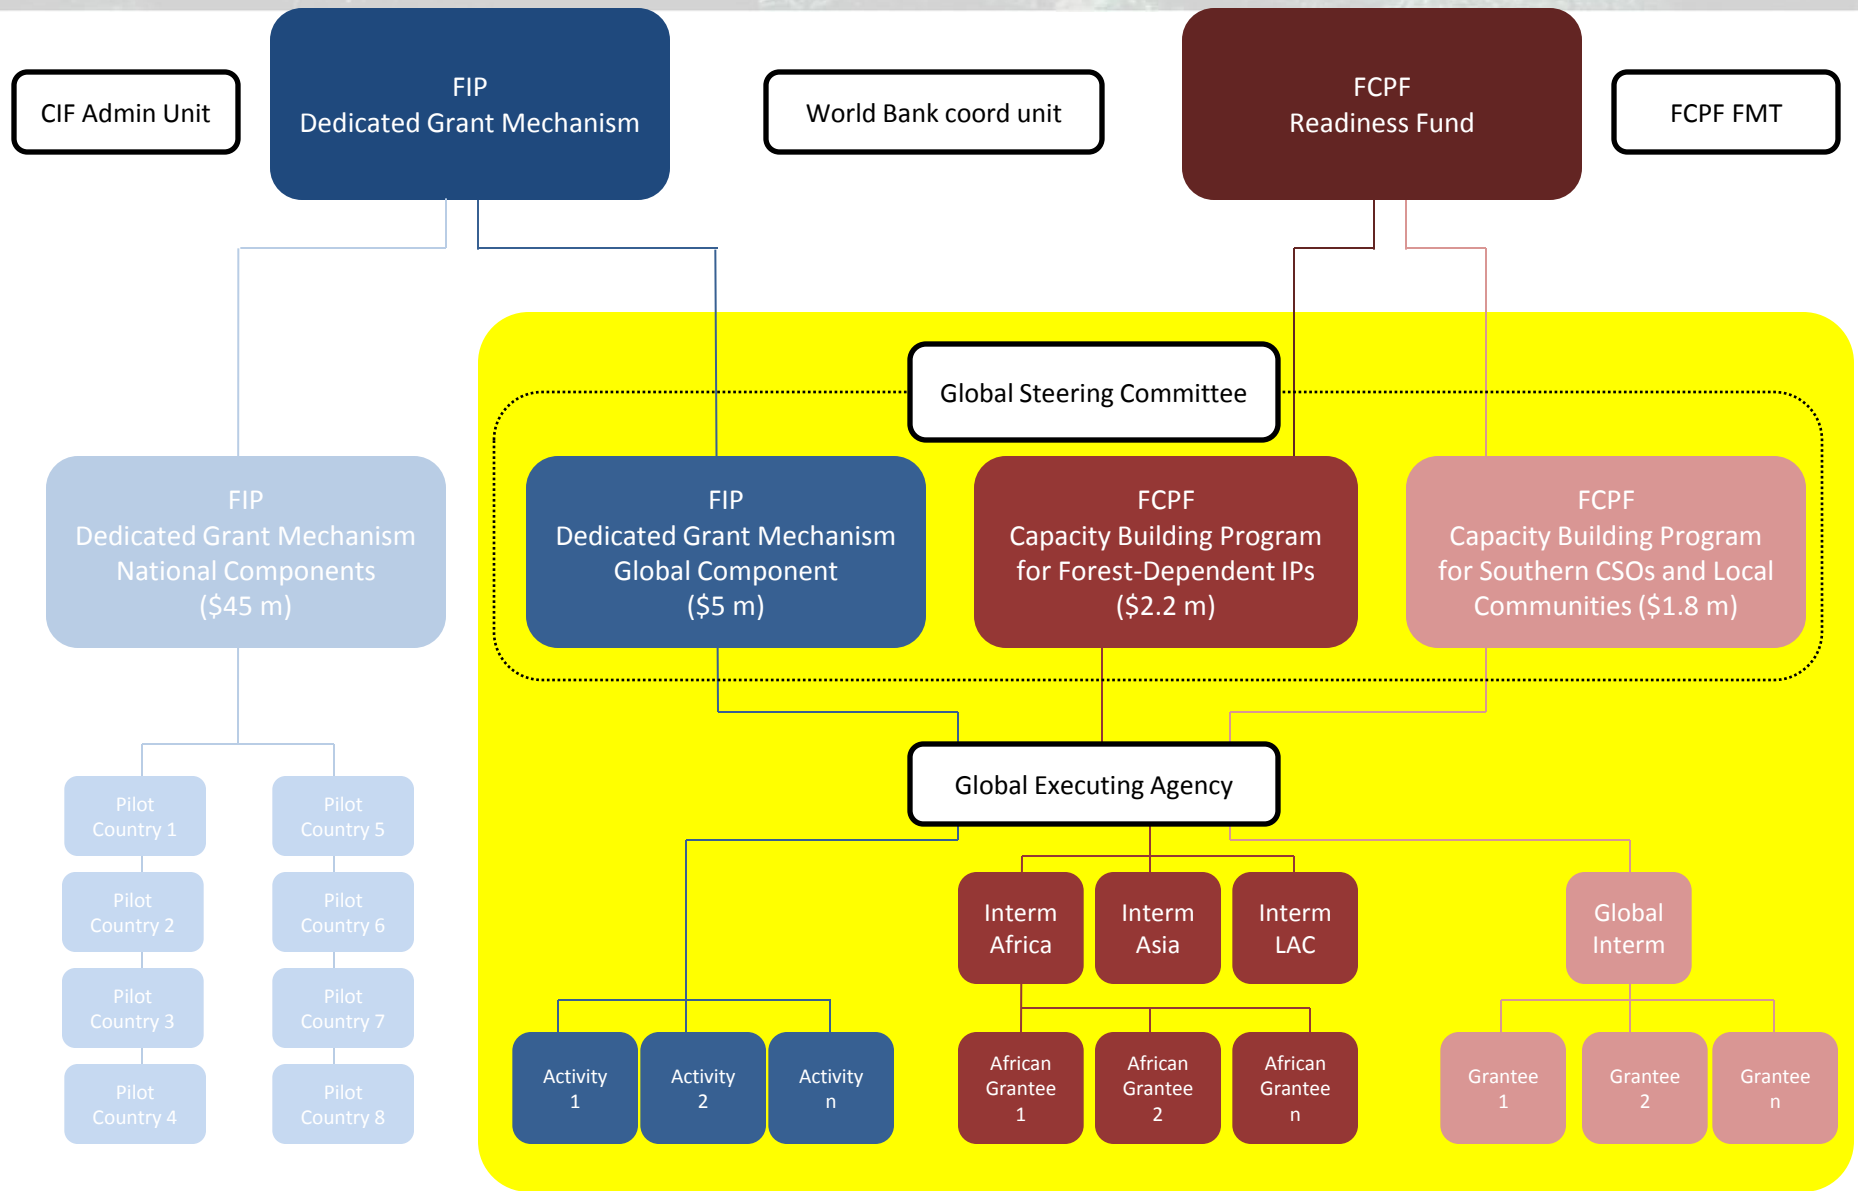

# FCPF Capacity Building Programs (Without Alignment)

# FIP DGM Global Component (Without Alignment)

# Alignment between FCPF Capacity Building Programs and FIP DGM Global Component

# Benefits of Alignment

- Strategic impact:
  - Concrete collaboration between FIP and FCPF for the benefit of Indigenous Peoples and local communities
  - Expansion of the global knowledge exchange forum envisaged by the FIP to include FCPF beneficiaries
  - Potential to grow and attract co-financing
- Efficiency:
  - Avoidance of duplication of activities and reinforcement of complementarity
  - No addition of administrative layers but sharing and streamlining of new features, so overall better use of available donor resources:
    - Creation of a single Global Steering Committee (instead of two) – Membership to be confirmed to represent beneficiaries of both programs
    - Optimization of the Global Executing Agency (to serve the FCPF as well as the FIP)
    - Optimization of the coordinating unit within the World Bank (to serve the FCPF as well as the FIP)
- These gains will be achieved without co-mingling the funds from the FCPF and FIP or undermining the governance structures of either program
