

Report

Asia-Pacific Indigenous Peoples Dialogue with the Forest Carbon Partnership Facility (FCPF)

10th Dec. 2012

Millennium Hotel, Doha

Capacity Building

- Capacity building of Indigenous Peoples at all levels
- Capacity building of Government officials and WB Country levels staffs on Indigenous Peoples' Issues
- Clear communication and outreach plan
- Relevant materials should be translated into local languages,
- Utilize all media for information dissemination
- Establishment of repository database on REDD+

Participation

- WB facilitate discussions with governments on self selected IP Representation (e.g. national REDD bodies)
- Full and effective participation of IP and IP women at all levels
- Recognition of the role of IP institutions
- Consensus-based decisions
- Baseline information on existing IP organizations

Recognition of Rights

- Consistency with UNDRIP and ILO 169 and other international instruments
- Operationalize requirements for national grievance mechanism
- Full and effective participation in the design, implementation and monitoring of the National REDD+ strategy
- Ensure Free, Prior and Informed (FPIC) on any policies and projects related to Customary Forests and Indigenous Territories in the implementation of REDD+
- Recognition of IP informal institutions

Studies

- At least three case studies on land tenure
- Case studies on the drivers of deforestation and benefit sharing

Carbon Fund

- Ensure the recognition and inclusion of the multiple benefits of forests/non-carbon and the equitable entitlement of benefits for IP as agreed in Doha
- A mechanism for consultation process on the Carbon Fund with IP has to be set up.

Readiness Fund/R-Package

- Establish mechanism for the effective participation of IP in the formulation of guidelines and indicators relating to the R-Package
- Policy and law reform consistent with UNDRIP and other international standards
- Safeguards Information System (SIS) has to go for the highest maximum standards for safeguards consistent with international human rights instruments
- Establishment of grievance mechanism commodating IP concerns at local, national and international levels

Financing

- Streamlined capacity building fund with simple administrative process
- Direct access and management to carbon fund for IP
- Elaboration on non-carbon benefits
- Monitor the implementation of above and provide support to IP representatives as needed/requested.

MRV

- Monitoring on non carbon benefits of Forests
- Establishment of community based safeguard information and monitoring system including community mapping

Thank You
